Postmodernité Et Sciences Humaines:

Postmodernité et sciences humaines Yves Boisvert, 1998-01-01 La notion de postmodernité est depuis plusieurs années d'actualité de vifs débats. C'est que et peu importe qu'on l'envisage comme époque ou comme attitude elle entretient comme le mot l'indique un rapport problématique avec la modernité travers lequel se manifestent selon les uns incompréhension et trahison de principes libérateurs Raison Progrès etc selon les autres désir d'affranchissement d'indépendance aux mensonges et redécouverte d'un plus grand jeu pour la pensée et l'action. En effet de cette polémique et pour mieux en ressaisir la nature et la portée le présent ouvrage donne la parole à ceux qui ont recours à la notion pour qu'ils exposent sur le mode du récit intellectuel les raisons pour lesquelles ils en sont venus à l'adopter et l'usage qu'ils en font. C'est peut-être la meilleure façon d'en montrer le sens et l'intérêt et de mesurer son apport à la compréhension de notre temps.

Les littératures africaines de langue française à l'époque de la postmodernité Hans-Jürgen Lüsebrink, Katharina Städler, 1949-12-31 Les concepts de postmodernité et de postcolonialisme revêtent en Afrique des significations radicalement différentes de celles qu'ils ont revues en Occident. Les douze études réunies dans ce volume étudient cette différence dans des œuvres littéraires africaines parues depuis 1948 sous quatre aspects caractéristiques : rapports interculturels entre champs littéraires africains et européens, prix littéraires, critique de l'histoire, interculturelité des textes littéraires africains, regards croisés nouveaux rapports entre genres littéraires, théâtre, chanson, nouvelle et entre littérature et médias, photographie, film, internet, nouvelles réalités, mondialisation, cyberlittérature, guerres civiles, SIDA. Les analyses des chercheurs africains et européens sont précédées d'une introduction théorique de la postmodernité africaine par Hans-Jürgen Lüsebrink et d'un article par Katharina Städler qui dresse le bilan de la recherche en Allemagne et en Autriche.

Le Concept théologique de la postmodernité Blaise Katikishi Muzembe, 2012-02-27 L'on devrait commencer par reconnaître que appelés surmonter le défi de la postmodernité le christianisme et la théologie traversent aujourd'hui une situation de dure preuve. Ils sont comme provoqués à requalifier le protocole de leurs discours et le contenu de leurs cahiers de charges. Et dans cette tâche ils prennent conscience que les réponses classiques sont devenues fort étroites et manifestement insuffisantes face à la question sociale et la question sexuelle surtout dans ses nouvelles formes d'expression au problème de la préservation de l'environnement et celui relatif à la nouvelle orientation des droits humains selon l'ordre de la justice internationale. Ce livre définit les bases théologiques d'une nouvelle re-spirituelle et religieuse d'après une étude poussée du concept de postmodernité dans la société mondiale actuelle. Son mérite est de démontrer que dans sa confrontation avec les pistologies de la re-postmoderne l'herméneutique théologique peut se circonscrire un ordre nouveau de ses tâches essentielles en s'inscrivant dans la perspective d'une pistologie large, large et alliée aux questions que soulève la nouvelle structuration de notre insertion dans l'histoire. L'auteur se livre ici à une étude argumentée d'excellente facture, mettant entre des mains expertes du sujet. Un travail colossal, clair et abondamment documenté.

Vom Paläolithikum zur Postmoderne - Die Genese unseres Epochen-Systems Andreas Kamp, 2011-02-03 Dies ist der erste Teil einer zweibändigen Studie zur

Genese unseres heutigen vom Anspruch her den chronologischen Verlauf der gesamten Menschheitsgeschichte strukturierenden Epochen Systems Der Band skizziert zunächst die geistesgeschichtlichen Prämissen Von der rudimentär paläolithischen Zeiteinteilung führt er über die ältesten schriftlich dokumentierten Ordnungsversuche in den sumerischen bzw. ägyptischen Königlisten griechische und römische Autoren Petrarca Bruni und Vasari bis zu Cellarius der am Ende des 17. Jahrhunderts die Drei Zeitalter Distinktion Antike Mittelalter Neuzeit zum zentralen chronologischen Gliederungsprinzip der Weltgeschichte erhob Anschließend stehen die drei klassischen von Pyrrhon Polybios bzw. Ptolemaios entwickelten Epochenkonzepte sowie deren Auftauchen und Rezeption im lateinischen Europa im Fokus Sodann wird die erstaunlich spät nämlich erst nach Mitte des 16. Jahrhunderts einsetzende Transformation der Epochen zur fundamentalen historiographischen Ordnungskategorie thematisiert Schließlich verfolgen wir anhand zahlreicher Autoren sowie der kontemporären Lexikographie ihren Aufbruch in Latein wie in den relevanten europäischen Volkssprachen Englisch Französisch Deutsch Spanisch Portugiesisch Italienisch stattfindenden Divulgationsprozesse Dabei erweist sich der Ausgang des 17. Jahrhunderts erneut als Wasserscheide Der erste Band endet deshalb an dieser Stelle der zweite wird dann die weitere Entwicklung von 1700 bis zur Gegenwart analysieren This is the first part of a two volume study of the genesis of our modern day system of epochs which claims to structure the chronology of the entire history of mankind The volume sets out by sketching the intellectual premises It leads from the rudimentary Palaeolithic division of time via the oldest attempts at structuring to have been documented in written form through to the Sumerian and Egyptian King Lists to Greek and Roman authors to Petrarch Bruni and Vasari and finally to Cellarius who in the late 17th century introduced the distinction between the three epochs of Antiquity the Middle Ages and the Modern Era as the basic chronological principle of organising the history of the world This is followed by a closer look at the three classical concepts of Epoch as defined by Pyrrhon Polybios and Ptolemaios respectively as well as their surfacing and reception in Latin Europe Not until the second half of the 16th century which is an astonishingly late point in time can the transformation of Epoch into a fundamental category of historiographic structuring be detected Finally by studying numerous writers as well as the contemporary lexicography we will outline the process of divulgation that took place both in Latin as well as in the relevant European vernaculars English French German Spanish Portuguese Italian In the process the late 17th century again proves to be a kind of divide As a consequence volume one ends here a second volume forthcoming will analyse the further development to the present day

Die Kritische Theorie zwischen Spätmoderne und Postmoderne: Nostalgie als Kritik Peter V. Zima, 2024-10-14

Ausgehend von der Überlegung, dass die wichtigsten Vertreter der Kritischen Theorie W. Benjamin, Th. W. Adorno, M. Horkheimer, H. Marcuse und J. Habermas der sog. Frankfurter Schule im Bildungsbürgertum der liberalen Raumpolitik aufgewachsen sind, wird gezeigt, dass ihre Gesellschaftskritik von den Prämissen und Wertungen des liberalen Individualismus ausgeht. In diesem Kontext ist die Ambivalenz ihrer Kritik sowie Adornos und Horkheimers Satz aus der Dialektik der Aufklärung zu verstehen. Nicht um der Konservierung der Vergangenheit sondern um der Einlösung der vergangenen Hoffnungen ist es zu tun. Der nostalgische Ton, der in diesem Satz anklingt, durchzieht nahezu alle Werke der Frankfurter Philosophen. Obwohl postmoderne Autoren wie Z. Bauman, J. F. Lyotard, M. Maffesoli und J. Baudrillard in mancher Hinsicht an die Kritische Theorie anknüpfen, verabschieden sie die aus dem liberalen Individualismus stammenden Wertsetzungen. *Postmoderne Pädagogik von A bis Z - Wörterbuch zur Theorie und Praxis postmoderner Erziehung und Bildung* Ignatz Kerscher, 2012

Normalismus und Antagonismus in der Postmoderne Jürgen Link, 2018-10-01 Die Krisenserie zu Beginn des 21.

Jahrhunderts von der Finanz- und Eurokrise bis zur Flüchtlings- und Populismuskrise hat die vorgehenden Normalitäten in vielen Dimensionen beeinträchtigt. Das lässt sich als Denormalisierung begreifen und wirft die Frage auf, wie soziokulturelle Normalitäten produziert und reproduziert werden. Darauf antwortet das hier aktualisierte diskurstheoretische Konzept des Normalismus. Kann die Krisenserie sogar zu einem Ende der Normalität führen und was würde das bedeuten? Das ist die Frage nach einer belastbaren Bedeutung des in den USA entstandenen Konzepts eines New Normal. Wenn es das Ende der Krisenserie meinen sollte, was unterscheidet es dann von einem Old Normal? Und wie verhält sich ein New Normal zum ebenso schillernden Begriff einer Postmoderne? Die Antwort der Studie auf solche Fragen kombiniert die Kategorien des Normalismus und des Antagonismus. Sie schlägt ein gegenüber seiner dialektischen Herkunft neues diskurstheoretisch fundiertes und operatives empirisch belastbares Konzept von Antagonismus als tendenziell irreversible Denormalisierung vor. Mit diesem Instrumentarium wird zunächst die Postmoderne einschließlich der anderen Postismen als das Konzept einer vorgeblich historischen Epoche ohne Antagonismen gefasst. Anschließend werden die Krisenserien unter diesem Aspekt analysiert und ein vorläufiges Prozessschema der Krisenverläufe erstellt. Dabei wird auch die Krise der politischen Normalität Populismuskrise transparent. Daraus ergibt sich ein Ausblick auf die Alternative zwischen der Gefahr eines katastrophischen Kollapses des Normalismus auf der einen und transnormalistischen Auswegen auf der anderen Seite. **Moderne/**
