Social Policy and Discourse Analysis Greg Marston,2004 Despite the fact that policy is increasingly led by the mass

media social policy research has so far focused on variables and quantitative measurement rather than cultural meanings and moral welfare debates Taking a critical examination of social policy on public housing by way of illustration this book demonstrates how critical discourse theory can be used in applied research It shows how the theory and method of critical discourse analysis can be worked together in an intricate and accessible way Disability/postmodernity Mairian Corker, Tom Shakespeare, 2002 This text looks at the study of disability within the context of the postmodern world of the 21st century The authors aim to demystify the concept of postmodernity and to suggest ways in which it fosters a holistic approach to the study of disability **Social Work in Europe**, 1999 *Transforming Community Care* Helen Gorman, Karen Postle, 2003 The third title in the Theories in Social Work series The authors use their detailed research to show powerfully how a generation of social workers have been disillusioned by care management They also use their own practice experience with older people to demonstrate the continuing possibilities for social work to empower service users and practitioners to develop care management in the future publisher Engaging Paulo Freire's Pedagogy of Possibility César Augusto Rossatto, 2004-12-01 Engaging Paulo Freire's Pedagogy of Possibility is a cross cultural case study of how people experience schooling in relation to their sense of time and optimism C sar Augusto Rossatto examines how real life situations and social structures influence people's construction of notions of possibilities Positionality or perceptions about life and projections of the future has great impact on students success in school These perceptions how they interpret the past live in the present and foresee the future are in turn greatly influenced by their intellectual locality By the same token how educators see their position in the world and their classroom roles determines their operandum beliefs The findings of this study suggest that a curriculum based on Freirean critical pedagogy and time theories can be used to enhance time consciousness values in contemporary social life **Postmodernity & the Fragmentation of Welfare**, Printbegr nsninger Der kan printes kapitelvis **International Labour Documentation** International Labour Organization. Bureau of Library and Information Services, 2000 Aging, Globalization, and Inequality Jan Baars, 2006 Focuses on the variety of ways in which age and ageing are socially constructed and the extent to which growing old is being transformed through processes associated with globalisation This book provides the basis for a modern type of critical gerontology relevant to the twenty first century Social Work Models, Methods and Theories Paul Stepney, Deirdre Ford, 2000 In a climate for practice increasingly shaped by global economic and social forces the importance of a reflective discourse about the place of theory in practice is paramount This book argues how social work can be a credible and relevant factor in the lives of people who use its services **The Politics of Community** Adrian Little, 2002 Community is one of the most widely used yet also one of the most complex concepts in modern political thought This book provides an introduction to the concept showing how philosophical ideas can be used in political practice The aims of the book are to provide a critical analysis of the historical use of the concept of community in political philosophy and sociological theory to demonstrate the problems that emanate

from the division between communitarianism and liberalism to contrast the orthodox views on communitarianism of conservative thinkers in the UK and USA with more radical and egalitarian perspectives to consider possible new ways of thinking about notions of community in relation to social and economic policies to show the relevance of community to debates about democracy pluralism difference and the future of the state and civil society While other books consider either the philosophical or the policy elements of community this book is unique in drawing together these strands and demonstrating their links As such it is an ideal textbook for undergraduate students grounding abstract and quite difficult theory in contemporary situations

Reconceptualizing Social Policy Amanda Coffey, 2004 Sociological Perspectives on Social Policy provides a variety of sociological frameworks for understanding contemporary social policy It is thematically structured and explores how sociological perspectives may be used to theorize conceptualize and research social policy

Health and Social Change Graham Scambler, 2002 How have health illness and medicine been affected by social change What are the implications of disorganized capitalism neo liberalism and the Third Way for health and healing How important are class gender and ethnic relations for health care reforms and the distribution of health Health and Social Change offers a clear and incisive examination of the social changes that have affected capitalist societies and their ramifications for health and for systems of healing It reviews the major paradigms of medical sociology and considers theories of the postmodern turn The author draws on critical realism and critical theory to demonstrate the significance of the shift from organized to disorganized capitalism for health care reform in particular in Britain and the USA for the present widening of health inequalities and for people's use of popular folk and professional forms of healing He goes on to examine the role of a critical sociology and its necessary relationship to civil society and deliberative democracy The result is an engaging and thought provoking text for students researchers and professionals interested in health and social change
