Postnational Self Belonging And Identity:

The Postnational Self Ulf Hedetoft, Mette Hjort, 2002 What happens to a sense of belonging when national and regional governments religious organizations community groups political parties and corporations become unstable and incoherent as they have in these nationalist and postnationalist times From a richly interdisciplinary perspective the authors examine notions of citizenship and cultural hybridization migration and other forms of mobility displacements and ethnic cleansing and the nature of national belonging in a world turning ever more fluid aided by transnational flows of capital information people and ideas

Heimat sind wir! Wolfgang Meixner, Erol Yıldız, 2025-04-17 Der Heimatbegriff wie er im Deutschen verstanden wird ist eng mit nationalen Vorstellungen verbunden Erst eine Entnationalisierung des Begriffs ermöglicht es ihn historisch zu kontextualisieren als Prozess zu betrachten und zu einem Alltagsphänomen zu machen Heimat hat mit unseren Lebensgeschichten und aktuellen Lebenswirklichkeiten zu tun und lässt sich über Orte Menschen und soziale Praktiken bestimmen Um Heimat zu verstehen muss man sich daher zuerst selbst erforschen Die Beiträge innen eröffnen durch die Begriffe mehrheimisch und weltheimisch andere Denkweisen und entwerfen eine neue Kartographie des Möglichen

A Political Theory of Identity in European Integration Catherine Guisan, 2013-03-01 This book provides a theoretical and historical examination of the speech and deeds of European founders Using a fresh and innovative approach this monograph connects political theory with concrete political practices based on empirical evidence and theorizes the internal process of European reconciliations as it has been experienced by those involved The book draws upon over 100 interviews memoirs autobiographies and essays of elite and grassroots actors across the history of the European Union from the founding of the European Coal and Steel Community in 1950 to the 2010 financial crisis It introduces the reader to major contemporary Western political thinkers Hannah Arendt Jürgen Habermas Charles Taylor and Paul Ricoeur and examines how their theories develop the interpretation of political phenomena such as European integration As one of the first studies of EU memories this approach opens a unique window of analysis to view the development of the European community and makes a fascinating contribution to our understanding of the political tradition born of 60 years of European integration

A Political Theory of Identity in European Integration Memory and Policies will be of strong interest to students and scholars of European politics contemporary democratic theory and EU studies

Nations and Democracy Amanda Machin, 2014-11-13 A figure of enduring ingenuity the nation has for centuries played a part on the socio-political stage Whether centre stage or background scenery it has featured in violent tragedies revolutionary drama and nostalgic fable Today the nation is cast simultaneously in the roles of villain and hero While it is renounced by those advocating transnational postnational and cosmopolitan forms of belonging it has lately also been asserted as the solution to various social failures in liberal democracies This appears to leave us with two alternatives to jettison the nation in order to move towards a less parochial world a world in which new forms of belonging underpin more inclusive politics Or to celebrate the nation as way of ensuring

the social cement that can unite a diverse society Using the ideas of Wittgenstein and Lacan Amanda Machin expertly explains that the overlapping and conflicting language games of the nation produce it as an object of desire in an uncertain world The nation is not a pre political thing but a matter of persistent political contestation and coalition She reveals that the nation still has a vital part to play in democratic politics but that this role is one of improvisation While they endure as tools of emancipatory promise nations nonetheless remain potential categories of violent exclusion They cannot be pinned down as easily as anti national and pro national alternatives suggest It is precisely the indeterminacy of the nation that gives it ongoing importance for democracy today Providing an urgent riposte to dominant accounts this thought provoking and highly original account demands a re politicisation of the nation This book will appeal to those engaged in theory and empirical research on nations and nationalism and the question of their link to democracy in a changing world as well as those interested in psychoanalysis and Wittgenstein

Strangers, Migrants, Exiles Frauke Reitemeier,2012 **The National and Beyond** Pietari Kääpä,2010 The films of Aki and Mika Kaurismäki are part of a globalising Finnish cinema challenging conventional parameters at every turn This work examines the films that the Kaurismäkis produced individually and in collaboration between 1981 and 1995 films which mobilise various methods to reflect criticise counteract and contribute to the globalisation of Finnish society in the era of late capitalist development This work provides an in depth analysis of these films exploring the aesthetic and narrative content of the films as well as their production and reception in Finland The theoretical scope of the work situates the films not only in the field of transnational cinema but also that of post national cinema Exploring the Kaurismäki films in a post national framework points to new emergent understandings of both the fragility and the persistence of national culture and identity in a globalising world

Encyclopedia of Governance Mark Bevir,2006-12-13 The language of governance extends to patterns of rule found throughout our daily lives Governance also provides us with a language with which to remake our world We might ask how to make markets networks international organizations corporations and other associations democratically accountable We might also ask what values we want to uphold in our practices of governance It is important for us to address these questions because by doing so we make the future The Encyclopedia of Governance provides a one stop point of reference for the diverse and complex topics surrounding governance for the period between the collapse of the post war consensus and the rise of neoliberal regimes in the 1970s This comprehensive resource concentrates primarily on topics related to the changing nature and role of the state in recent times and the ways in which these roles have been conceptualized in the areas of Political Science Public Administration Political Economy and Sociology Key Features Presents a determinedly global scope through approximately 550 entries written by international contributors that explicitly address global regional and transnational topics cover theories and concepts that are debated globally highlight similarities and differences around the world and offer examples from diverse regions and countries Examines the changes in the state associated with the transfer of powers rights and

functions to organizations within civil society as well as the rise of new types of regional and international linkages and problems Explores how the state has become both increasingly dependent on organizations in civil society and increasingly constrained by international linkages Avoids the jargon that characterizes most writing in the field and translates this language into a more familiar and commonsense vocabulary so as to make it intelligible to a wider audience Offers comprehensive coverage of topics including policy analysis public sector management sociological theory economic governance democratic theory security and global governance The Encyclopedia of Governance offers new insights into the global community of which we are all part making it a must have resource for any academic library *Language and Identity in Late Modernity* Kerstin Lück,2004 **"Auf einmal war ich illegal"** Katerina Kratzmann,2007 Grenz bergang Ankunft in sterreich Lebensalltag hierzulande Identit tsverhandlungen und Zukunftsperspektiven der Menschen F r undokumentierte MigrantInnen die ihr Herkunftsland aus unterschiedlichen konomischen sozialen politischen etc Gr nden verlassen bedeutet das Ankommen im Aufnahmeland zugleich den Eintritt in ein bestimmtes Rechtssystem und damit in den Status der ihnen von diesem System zugeschriebenen Illegalit t Dabei wird das Wechselverh ltnis von Aufnahmegesellschaft und MigrantInnen von zwei Faktoren bestimmt einerseits von N tzlichkeitserw gungen der Aufnahmegesellschaft bzw von konomischen Interessen der MigrantInnen andererseits von der Unterteilung in wir und die anderen anhand von rechtlichen Kategorisierungen und Fremdheitszuschreibungen In der Konsequenz bewegen sich undokumentierte MigrantInnen im Alltag in einem Niemandsland einem verwirrenden Komplex von Teil Integration in den sekund ren Arbeitsmarkt und bestimmte soziale Netzwerke und Ausgrenzung von staatsb rgerlichen Rechten und vom regul ren Zugang zu Arbeit Wohnung und gesundheitlicher Versorgung Die Untersuchung zeigt dass seit Beginn der 80er Jahre neue Ausgrenzungsdiskurse und praktiken von staatlicher Seite installiert wurden die einen neuen institutionalisierten Rassismus hervorbringen Dabei r cken soziale und politische Ungleichheiten in den Hintergrund der Debatte w hrend Argumentationen der berfremdung der Ausl nderproblematik usw im Vordergrund stehen **One Homeland Or Two?** Alexander C. Diener,2003 **Sport and Corporate Nationalisms** Michael L. Silk,David L. Andrews,C. L. Cole,2004-12-01 The world of sport is saturated with the signs and images of transnational corporations But what effect does the relationship between sport and transnational corporate capitalism have on national cultural identities From baseball in Japan to the growth of womens soccer in the US from the corporate use of sport after September 11th to the FA Cup and the NBA sporting events and their corporate partners can have a profound impact on collective imaginations at both transnational and local levels Sport and Corporate Nationalisms explores the localized logics and practices underlying the marketing initiatives of major conglomerates and their increasing influence on the shaping and experiencing of national cultures Corporations depend on sport as a vital marketing vehicle for inserting their interests into the lives of local consumers This book puts forth convincing arguments that relate the role of sport marketing complexes to national cultural markets in a global age Sport

and Corporate Nationalisms provides a much needed analysis of the growing evolution of marketing strategies in the world of sport

Changing Concepts and Practices of Citizenship Filiz Kartal, 2009 The present inquiry has two dimensions first it is concerned with the changing concept of citizenship in the liberal polities with respect to increasing diversity within these societies with special reference to the impact of immigration on diversity Second it tries to explore the impact of immigration on the conceptualization of citizenship from the standpoint of individuals Until recent times individual level analysis has been neglected both in immigration and citizenship studies This study tries to contribute to the literature by investigating the experiences and perceptions of the individuals as the main actors of immigration and the bearers of citizenship as an identity and as a legal status The purpose is to explore the challenges of immigration on the modern concept of citizenship by interpreting the perceptions of individuals It tries to reveal the ways in which citizenship practices and conceptualizations of second generation Turkish Germans support and or diverge from the theoretical approaches that attempt to explicate the immigration citizenship problem

David Waskowski, 2006 **Identity Dynamics and the Construction of Boundaries** Bo Petersson, Eric Clark, 2003 How is identity constructed maintained and altered in different geographical personal and societal contexts A multi disciplinary approach is indispensable for an understanding of the deeply intertwined processes of identity construction and boundary formation In this spirit Identity Dynamics and the construction of Boundaries brings together scholars from political science human geography and area studies who present a variety of perspectives on the subject It is the fruit of a series of seminars and workshops on the themes of identity nationalism globalisation migration citizenship and the removal and displacement of borders The authors analyse a number of issues regarding identity and boundary construction drawing on case studies from a wide range of countries including Denmark Ireland Sweden and Russia

Demons and Demos Anupma Logani

Kulkarni, 2005 **Eastern Christians in Anthropological Perspective** C. M. Hann, Hermann Goltz, 2010 This collection of essays is a welcome and refreshing gift in a virtual desert There has been very little comparative anthropological research on the Eastern churches and this volume will fill that gap Michael Herzfeld author of Evicted from Eternity The Restructuring of Modern Rome At long last there is a book on the anthropology of Christianity that devotes direct and sustained attention to the diverse Eastern Christian Churches both Orthodox and Catholic This book should be read by anyone who thinks anthropologically about Christianity Scales will fall from their eyes and they will behold an entire wing of Christianity that has until now gone mostly unnoticed and practically untheorized Douglas Rogers author of The Old Faith and the Russian Land A Historical Ethnography of Ethics in the Urals

Handbook of Contemporary European Social Theory Gerard Delanty, 2006-09 This innovative publication maps out the broad and interdisciplinary field of contemporary European social theory It covers sociological theory the wider theoretical traditions in the social sciences including cultural and political theory anthropological theory social philosophy and social thought in the broadest sense of the term This volume surveys the

classical heritage the major national traditions and the fate of social theory in a post national and post disciplinary era It also identifies what is distinctive about European social theory in terms of themes and traditions It is divided into five parts disciplinary traditions national traditions major schools key themes and the reception of European social theory in American and Asia Thirty five contributors from nineteen countries across Europe Russia the Americas and Asian Pacific have been commissioned to utilize the most up to date research available to provide a critical international analysis of their area of expertise Overall this is an indispensable book for students teachers and researchers in sociology cultural studies politics philosophy and human geography and will set the tone for future research in the social sciences *Between a Melancholic History, and an Urgent Revolution* Laura Ceia-Minjares, 2005

Immigrant Women of the Academy Mary Vianna Alfred, Mary V. Alfred, Raji Swaminathan, 2004 This book is about immigrant women of colour in the US and particularly in the ivory tower Collectively the narratives in the book strive to further the discourse regarding the multiple interrelationships of identity culture self others pedagogy and institutions of higher education The accounts that follow describe what it means to be a transnational student professor scholar and administrator within the contested terrain of higher education The women in this book have experienced the halls of academe in different ways not always as faculty at a research university The narratives are organised geographically and draw out the experiences of the third wave of immigrants coming from Africa Asia the Caribbean or West Indies and Latin America This book brings together the multidimensional voices of immigrant women of colour to chronicle the immigrant experience in the United States **The Global Turn** Ulf Hedetoft, 2003

Persistent rumour has it that globalization is doing serious damage to the nation state at the present historical juncture Dramatic versions of the narrative even insist that the challenge of globalization to the nation state is so serious that this pivotal unit of the international system is in danger of disappearing In this book Ulf Hedetoft focuses attention on this Global National nexus in some of its many differing manifestations offering both theoretical historical and analytical thoughts and perspectives on a problem which increasingly dominates academic and public debates He argues that it makes sense to talk about a Global Turn in international studies a change which might be as profound and consequential as the well known linguistic turn in the study of society and politics This does not mean that globalization spearheaded by the USA is ousting the nation state from the global scene In fact the global order needs nation states although their position will be radically different and their sovereignty except for a few cases without much substance Populist and romantic nationalism notwithstanding there is no going back to an earlier and more virginal state of national political or cultural history In this sense globalization is irreversible Whether we like it or not the Global Turn is here for good
