Postsocial History An Introduction:

Postsocial History Miguel A. Cabrera, 2004-01-01 In *Postsocial History An Introduction* historian Miguel A. Cabrera points to the crisis of modernity as a locus for the collapse of social historical models. Previously established theories of social change and social relations are proving insufficient, calling for the emergence of a new social historical theory. By arguing convincingly for the inclusion of language in that model, Cabrera awakens a revolutionary new approach to historiography. The book will prove indispensable to historians and to social scientists in general who are dissatisfied with the old paradigms and seek new ways of addressing the challenges of social research.

Postsocial History Miguel A. Cabrera, 2004 In this title Canbrera argues for the inclusion of language in a new model of social history that challenges traditional historiographical theory.

The French Nobility in the Eighteenth Century Jay M. Smith, 2006-10-03 Historians have long been fascinated by the nobility in pre Revolutionary France. What difference did nobles make in French society? What role did they play in the coming of the Revolution? In this book a group of prominent French historians shows why the nobility remains a vital topic for understanding France's past. *The French Nobility in the Eighteenth Century* appears some thirty years after the publication of the most sweeping and influential revisionist assessment of the French nobility: Guy Chaussinand Nogaret's *La noblesse au dix huitième siècle*. The contributors to this volume incorporate the important lessons of Chaussinand Nogaret's revisionism but also reexamine the assumptions on which that revisionism was based. At the same time they consider what has been gained or lost through the adoption of new methods of inquiry in the intervening years. Where, in other words, should the nobility fit into the twenty first century's narrative about eighteenth century France? *The French Nobility in the Eighteenth Century* will interest not only specialists of the eighteenth century, the French Revolution, and modern European history but also those concerned with the differences in and the developing tensions between the methods of social and cultural history. In addition to the editor, the contributors are Rafe Blaufarb, Gail Bossenga, Mita Choudhury, Jonathan Dewald, Doina Pasca Harsanyi, Thomas E. Kaiser, Michael Kwass, Robert M. Schwartz, John Shovlin, and Johnson Kent Wright.

The SAGE Handbook of Historical Theory Nancy Partner, Sarah Foot, 2013-01-31 The editors introduce the core areas of current debate within historical theory, bringing the reader as up to date with continuing debates and current developments as is possible. This important handbook brings together in one volume discussions of the role of modernity, empiricism, realism, post modernity, and deconstruction in the historian's craft. Chapters are written by leading writers from around the world and cover a wide spread of historical sub disciplines such as social history, intellectual history, narrative, gender, memory, psycho analysis, and cultural studies, taking in along the way the work of thinkers such as Paul Ricoeur, Michel Foucault, and Hayden White.
