Michael Peters

Poststructuralist Rdgof Pedagogical:

Poststructuralism and Educational Research Michael A. Peters, Nicholas C. Burbules, 2004-10-26 Poststructuralism and its implications for something called postmodernism is a major topic of discussion in social theory and research generally including educational research The works of the major authors in this tradition Foucault Lyotard Cixous Derrida Haraway to name a few are challenging and difficult Yet more and more theorists and researchers in educational scholarship use this term to describe their work What does poststructuralism mean for these authors and what significance does it have for educational inquiry This book takes on these central questions and explores the impact of poststructuralism in language that makes the basic issues at stake accessible for a broad readership Michael Peters and Nicholas C Burbules highlight the implications of a poststructuralist stance for the conception of the research subject and examine its standards of validity and methods of investigation They also lay out the distinguishing characteristics of this approach to educational inquiry using as examples the particular ways in which writers including Giroux McLaren Lather and Ball have tried to incorporate the poststructuralist perspective into their investigations of educational issues The emphasis throughout this book will be on making these complex theoretical issues tangible and salient for the educational researcher **Seeking Passage** Rebecca

A. Martusewicz, 2001 In this eloquent collection of essays Rebecca Martusewicz positions a philosophy of education that relies on what transpires between teachers and learners in various contexts She thoughtfully analyzes how in the relationship between teachers and learners all kinds of ideas beliefs interpretations and meanings are generated as a result of potent generative forces that depend as she demonstrates using post structuralist theories on difference as their fuel Ultimately she argues that to become educated requires an attention to the welfare of self and others and a willingness to confront and shift one s own habits practices and beliefs for that purpose This work contains Clear translations of post structuralist theories such as those of Deleuze Serres and Derrida Well written essays that blend good storytelling theory and ethical analysis to reconceptualize education as the means toward social justice A clear argument for the drawing together of analyses of difference introduced by post structuralism with attention to ethics and social justice as they apply to education

Poststructuralist Readings of the Pedagogical Encounter James Palermo, 2002 Annotation Teaching is viewed as political since values are transmitted through culture specific language Drawing on several of his previously published essays Palermo educational foundations Buffalo State College New York looks to phenomenological structuralist and poststructuralist postfeminist thinkers including Merleau Ponty Derrida and Kristeva for novel ways to critique how pedagogy as influenced e g by Dewey or cultural pluralism constructs subjectively Includes a glossary Annotation c Book News Inc Portland OR booknews com **Power and Criticism** Cleo H. Cherryholmes, 1988 Structural analyses and prescriptions have had an important influence on contemporary education This work identifies and explores prominent structural themes in educational discourse and practice and places the ideas of Foucault Derrida Rorty and Habermas within

the context of education **Naming the Multiple** Michael Peters, 1998-06-18 Poststructuralism as a name for a mode of thinking a style of philosophizing a kind of writing has exercised a profound influence upon contemporary Western thought and the institution of the university As a French and predominantly Parisian affair poststructuralism is inseparable from the intellectual milieu of postwar France a world dominated by Alexandre Kojève and Jean Hyppolite's interpretations of Hegel Jacques Lacan's reading of Freud Gaston Bachelard's epistemology George Canguilhem's studies of science and Jean Paul Sartre's existentialism It is also inseparable from the structuralist tradition of linguistics based upon the work of Ferdinand de Saussure and Roman Jakobson and the structuralist interpretations of Claude Lévi Strauss Roland Barthes Louis Althusser and the early Michel Foucault Poststructuralism considered in terms of contemporary cultural history can be understood as belonging to the broad movement of European formalism with explicit historical links to both Formalist and Futurist linguistics and poetics and with aspects of the European avant garde especially André Breton's surrealism Each essay in this unique collection by and for educators is devoted to the work and educational significance of one of ten major poststructuralist philosophers **Beyond the Philosophy of the Subject** Michael A. Peters, Marek Tesar, 2017-12-21 This first volume focuses on a collection of texts from the latter twenty years of Educational Philosophy and Theory selected for their critical status as turning points or important awakenings in post structural theory In the last twenty years the applications of the postmodern and poststructuralist perspectives have become less mono focused less narrowly concerned with technical questions and also less interested in epistemology and more interested in ethics This book covers questions of genealogy ontology the body and the institution giving examples of theoretical applications of post structural theory that testify to the generative and endlessly applicable potential of this work to different fields and avenues of thought While informed by Foucault's thinking of the political subjugation of docile bodies to individuals as self determining beings the chapters in this book culminate in amalgamations of different schools of educational philosophy which explore poststructuralist approaches to education Beyond the Philosophy of the Subject will be key reading for academics researchers and postgraduate students in the fields of philosophy of education philosophy education educational theory post structural theory the policy and politics of education and the pedagogy of education **Dekonstruktive Pädagogik** Anja Tervooren, Bettina Fritzsche, Jutta Hartmann, Andres Schmidt, 2013-07-29 Der Band stellt methodische und praktische Konsequenzen der Auseinandersetzung mit Poststrukturalismus für die Erziehungswissenschaft dar und spannt den Bogen von grundlegenden erziehungswissenschaftlichen Fragestellungen zu Praxiskonzepten Neben einer kritischen Diskussion wichtiger Begriffe der Pädagogik wie Subjekt Differenz und Bildung aus poststrukturalistischer Perspektive werden Anregungen für eine große Bandbreite von Praxisfeldern geliefert Diese umfasst die Bereiche von Jugendhilfe bis schulischer Jugendarbeit Sozialpädagogik Schul und Hochschuldidaktik Interkultureller Pädagogik Integrationspädagogik sowie Weiterbildung von Erwachsenen *Poststructuralism, Politics and Education* Michael Peters, 1996-03-20 Using a theoretical

and historical investigation this study presents a poststructuralist critique of subject centred reason against the background of the modernity postmodernity and information society debates **Posthumanistische Pädagogik** Michael Wimmer, 2019

The era of humanism has come to an end Its concept has been criticised heavily most prominently from Marx Nietzsche and Freud What will follow is still an open question and one that is especially crucial for pedagogical thinking What we do know is that humans won't stop to reinvent themselves and it becomes obvious that our tightening symbiosis with technology is a major evolutionary step that deserves close scrutiny This book looks from different angles onto the new field of transhumanism and explores ways to liberate pedagogy from its ties to the metaphysical idea of humanism Der Humanismus hat seine praktische Geltungskraft und seine theoretischen Begründungsansprüche verloren An seine Stelle sind heute transhumanistische Technophantasien einer Überwindung des Menschen durch seine Symbiose mit der Maschine getreten Das Buch nimmt die Herausforderungen des Transhumanismus auf und reflektiert ihre Bedeutung für das pädagogische Selbstverständnis und die Theorieentwicklung aus einer poststrukturalistischen Perspektive Seit Marx Nietzsche und Freud ist der Humanismus einer radikalen Kritik unterzogen worden Nietzsches Begriff des Übermenschen war dabei einer der wenigen Versuche Menschenbildung jenseits seines humanistischen Verständnisses zu denken Die hier versammelten Beiträge haben nicht den Anspruch etwas an die Stelle des Humanismus zu setzen Vielmehr erkunden sie explorativ das neue Problemfeld zwischen Anti Post und Transhumanismus welches sich nach den Enden des Menschen aufgetan hat In diesem kommen verschiedene Diskurse zusammen die u.a Menschen in evolutionär fortgeschrittener Symbiose mit seinen Maschinen denken Im Humanismus verankerte Konzepte und Bemühungen wie Selbstbildung haben sich hier überlebt und machen die Suche nach posthumanistischen pädagogischen Konzepten notwendig
