Postwar British Critical Thought Andrew Milner,2005 Postwar British Critical Thought Andrew Milner,2005-01-05

The is an unparalleled comprehensive guide to postwar British thought on culture and society It provides readers with a unique resource which distils the key debates and crucial contributions and points to how these initiatives have been taken up elsewhere The volumes are organized into four main sections 1 Old Right and New Left 2 New Theories 3 New Politics and 4 New Times The first deals with the culturalist critiques of postwar Britain developed by the Old Right and New Left It also explores some of the sociological commentary on postwar British affluence and the power hierarchy The second section traces the impact of new forms of continental theorizing especially structuralism and post structuralism during the 1960s and 70s The third traces the growing concern with new issues of gender sexuality postcolonialism race and ethnicity The final section deals with postmodernism and globalization especially as reflected through the distinctively British thematics of exterminism New Times and the Third Way Andrew Milner is Professor in the Centre for Comparative Literature and Cultural Studies at Monash University in Melbourne Australia **Wittgenstein and the Social Sciences** Robert Vinten,2020-07-27

In Wittgenstein and the Social Sciences Robert Vinten takes a fresh look at the relationship between Wittgenstein s philosophy and the social sciences He argues that although social sciences are quite different to the natural sciences they are nonetheless properly called sciences The book looks in detail at whether Wittgenstein can be claimed by conservatives liberals or socialists as their own Wittgenstein s philosophical remarks and remarks about politics and culture are taken into account in deciding where to locate Wittgenstein in relation to various ideologies In the final part of the book Vinten considers how Wittgenstein s philosophy can be of use in resolving or dissolving problems in the social sciences Along the way he critically assesses work from Perry Anderson Terry Eagleton Richard Rorty and Chantal Mouffe in the light of Wittgenstein s philosophical oeuvre The book makes a compelling examination of how Wittgenstein s work remains as relevant as ever to thinking about our cultural and political situation *Why Higher Education Should Have a Leftist Bias* D. Lazere,2013-12-11 Presenting a thoughtful justification for the left in American education Donald Lazere argues that to teach students rhetoric and critical thinking key components of a humanist education educators must discuss and teach students to grapple with the conservative bias in academia the media and politics that is considered to be the status quo

"Landscape, Art and Identity in 1950s Britain " Catherine Jolivet,2017-07-05 During the years following World War II debates about the British landscape fused with questions of national identity as the country reconstructed its sense of self For better or for worse artists statesmen and ordinary citizens saw themselves reflected in the landscape and in turn helped to shape the way that others envisioned the land While landscape art is frequently imagined in terms of painting this book examines the role of landscape in terms of a broader definition of visual culture to include the discussion not only of works of oil on canvas but also prints sculpture photography advertising fashion journalism artists biographies and the multi media
