Poultry Environment Problems A Guide To Their Solutions:

Poultry Environment Problems D. R. Charles, 2002-01 One of the purposes of practical housing and equipment is to provide for the biological economic and welfare needs of the birds Fortunately the scientific literature contains a great deal of information on these needs so that a recommended approach to practical problems is to start with an appraisal of the requirements and responses of the birds Then designers and engineers can provide for these needs This book provides information on the needs and responses of poultry to aspects of the climatic environment by means of reviews of the scientific literature Biological responses to environmental factors are discussed as well as some principles of the movement of air through and within buildings Many of the principles apply to both indoor production and to the housing attached to free range systems

Poultry Production in Hot Climates Nuha Joseph Daghir, 2008 The poultry industry continues to expand in the warm regions of the world at a much faster rate than in temperate zones Not only can it be quickly and easily developed in these hot climates but poultry meat and eggs can serve as important sources of animal protein in those areas of the world that have protein insufficiency Fully revised and updated this new edition describes how the detrimental effects of heat stress can be reduced through the manipulation of housing breeding nutrition and management and includes new contributions on controlled environment housing waterfowl and breeding fast growing broilers
