Joseph A. Amato, David Monge

Power And Innocence:

Power and Innocence: A Search for the Sources of Violence Rollo May, 1998-03-17 Stressing the positive creative aspects of power and innocence Rollo May offers a way of thinking about the problems of contemporary society Rollo May defines power as the ability to cause or prevent change innocence on the other hand is the conscious divesting of one's power to make it seem a virtuous form of powerlessness that Dr May sees as particularly American in nature From these basic concepts he suggests a new ethic that sees power as the basis for both human goodness and evil Dr May discusses five levels of power's potential in each of us the infant's power to be self-affirmation the ability to survive with self-esteem self-assertion which develops when self-affirmation is blocked aggression a reaction to thwarted assertion and finally violence when reason and persuasion are ineffective

Giroux, 2012-11-12 In *Disturbing Pleasures* Henry Giroux demonstrates how his well-known theories of education critical pedagogy and popular culture can be put to use in the classroom and in other cultural settings Adding an entirely new dimension to his thinking about the cultural sites at which pedagogical practice takes place Giroux illustrates how professors school teachers and other cultural workers can appropriate what he refers to as a pedagogy of cultural studies

Victims and Values Joseph A. Amato, David Monge, 1990-11-21 *Victims and Values* joins history and ethics conducting a timely inquiry into conscience and politics Mindful of William James's notion that ethics must be grounded in the historical situation this book examines fundamental ambiguities dichotomies and contradictions that we experience about the worth of our own suffering and that of others In particular it analyzes how victims make a powerful claim upon contemporary conscience and politics Amato distances himself equally from those who deny suffering all substantive meaning and those who fashionably transform it into self-righteous identities and political rhetorics and ideologies Amato's hope is that each person will be able to take measure of the suffering of others while still remaining able to value his own suffering After distinguishing pain from suffering Amato starts his work with the assumption that humanity must interpret and give meaning to its pains and

sufferings Amato examines the fundamental place of suffering sacrifice and victims in Greek and Christian cultures Reaching the central object of his study the modern mind Amato shows how the reformist world view of the eighteenth century philosopher sought to reduce suffering to a matter of rational calculation and how the progressive views of the nineteenth century dedicated the most profound energies of society and state to the elimination of human suffering Ironically in the twentieth century this resulted in an increasingly hedonistic society that is preoccupied with suffering and its rights victims and their claims Historians philosophers political scientists theologians and lay people will all find a lively forum in Amato's work
