Protection, Cooperation, Integration and Development A. M. El-Agraa, 1987-06-18 Japan's Trade Frictions A. M. El-Agraa, 1988-06-18 **The Ashgate Research Companion to Regionalisms** Timothy M. Deardorff, Robert Mitchell Stern, 1995 Develops ideas and offers new approaches to the topic of trade theory **International Trade** A. M. El-Agraa, 1989-06-18 The aim of this book is to use geometry as the main medium of exposition to take those with a basic knowledge of economics from an elementary application of that knowledge to the most recent developments in the field of inter and intra industry international trade theory The Nafta Puzzle Charles Doran, Gregory P Marchildon, 2019-06-21 The editors would like to thank the Donner Foundation the Draeger Foundation and the Government of Canada for their timely and generous support of this study The study was initiated by the editors as part of the research program of the Center of Canadian Studies at the Paul H Nitze School of Advanced International Studies The Johns Hopkins University Washington D C and the emerging affiliated program in North American Studies Particular appreciation goes to Dr Barbara G Doran for the final editing of the entire manuscript In addition to the individuals acknowledged in each of the chapters the editors thank those scholars who helped guide the project at various times with constructive criticism and discussion Tom Barnes Robert Bothwell Reuven Brenner David Calleo Colin Campbell Benjamin Ginsberg Judith Goldstein Peter Katzenstein Allan Kornberg Jonathan Lemco Seymour Martin Lipset Charles Lipson Charles Pearson Richard Rosecrance and Sidney Weintraub **Markets and Politicians** Arye L. Hillman, 2012-12-06 Arye L Hillman There has been much economic theorizing directed at providing the politician with guidance in the design of policies that will amend market outcomes in ways that achieve specified efficiency or equity objectives It has been common practice in economic models to portray the politician who implements the policy recommendations as a mechanistic individual who behaves as would a benevolent dictator to maximize a prespecified conception of social welfare or the utility of a representative consumer The self interest and discretion that is attributed to

firms and consumers as optimizing agents is absent from the motives of such a politician Economic policy choice is thereby depoliticized How well depoliticized economic theory fares in explaining or predicting economic policy choice depends naturally enough upon how politicized is the economic system in which economic and political agents function The papers in this volume recognize that politicians may exercise sufficient discretion so as not to behave mechanistically in correcting market inefficiencies or in pursuit of a somehow specified just income distribution Since politicians are viewed as self interested optimizing agents just as are utility maximizing consumers and profit maximizing producers the choice of economic policies is politicized Coverage is provided of a broad spectrum of economic policy choice where markets and politicians interact Section I is concerned with policy determination in western market economies Section II with the introduction of markets into economies in transition from socialism and Section III with international transactions The Economics of the European Community A. M. El-Agraa,1994 The revised edition of this intermediate advanced introduction to EC economics takes into account recent developments in the Single European Market Masstricht Treaty and EC economic policies Sections on micro and macro policies have been rationalized into a general section that emphasizes the dynamic nature of the European Community and its policies policy topics including regulation industry agriculture transport tax EMS regional energy and the environment and provides up to date statistics **Protection for Sale** Gene M. Grossman,Elhanan Helpman,1993 **The British Library General Catalogue of Printed Books, 1986 to 1987** British Library,1988

The International Economic Order Charles Poor Kindleberger,1988 **Trade Policy in a Changing World Economy** Robert E. Baldwin,1988 Trade policy issues are no longer solely the concern of a few government specialists and academics Manufacturers businesspeople educators and government officials must keep abreast of laws and regulations relating to trade the economic consequences of various trade measures and current trends in policy but there have been few coherent sources for such information Trade Policy in a Changing World Economy provides a clear introduction to complex trade issues covering theoretical issues of trade policy the changing nature of American trade policy the changing nature of American trade policy since World War II multilateral trade negotiations and trade strategies The volume is particularly timely as the world s nations enter a new round of GATT negotiations for the reduction of trade barriers □□□□□□□□ □□□□□ □□□ (Japan),1987 *Perspectives and Issues in International Political Economy* Chronis Polychroniou,1992-09-30 This work brings together a collection of original essays on the contemporary study of international political economy IPE It provides contrasting and challenging interpretations of the study of IPE and the global political economy in general It also exposes the reader to major issues and problems in international political economy such as European unification U S Japanese trade tensions Africa s role in the world economy international debt and international financial reform A cross section of viewpoints provide challenging and insightful analyses of the major contemporary issues in international political economy The volume will be of interest to scholars and students of international relations political economy and political science **Annual**
