Meegan, 2023-02-08 This is the first book written about John Paul Merton Thomas Merton's younger brother Neither scholar nor saint the life of John Paul Merton illustrates there is more than one way to live a meaningful and holy life His was a quietly incubating spirituality guided by his law of love He began life singing in a crib and ended his life praying as he lay dying in a dinghy in the English Channel during World War II This book examines the relationship he had with his famous brother Thomas especially in the years before Tom became a monk It examines among other topics the relationship between Thomas the intellectual and John Paul the action oriented younger brother As a teenager John Paul earned the nickname Wildman and as an adult he learned to live life to the fullest on his own terms The bumps and bruises of his life orphaned at twelve years of age dismissed from Cornell without his degree and frustrated in his effort to serve in World War II as a fighter pilot were faced head on He lived life as an optimist without losing sight of the reality of his world Most importantly John Paul's journey of hidden holiness can inspire each of us as we too journey onward

Purification of Memory Ambrose Mong, 2015-06-25 Although its various bodies boast a combined total of at least 300 million members the Eastern Orthodox Church is widely perceived among members of other denominations to be an exotic branch of the faith often shrouded in mysticism and misunderstanding that has been exacerbated by the longstanding Eastern Western split In *Purification of Memory* Ambrose Mong casts light on the true nature of Orthodox theology illuminating the thinking of eight distinguished modern Orthodox theologians who have made important contributions on topics as ecclesiology ecumenism Christology and Mariology Approaching the work of John Meyendorff Nicholas Afanasiev John Zizioulas Georges Florovsky Sergius Bulgakov Vladimir Lossky Nicolas Berdyaev and Jaroslav Pelikan from an ecumenical standpoint Mong deftly draws comparisons with the theology of their Roman Catholic counterparts to reveal points on which the two traditions have much more in common than either side will always admit The author interweaves these comparisons with a fascinating exposition of the history of the schism between the Eastern and Western Churches to demonstrate decisively that in spite of the bitter mistrust dividing them they share a common heritage which could and should serve as a

basis for reunification Before old wounds can mend however a healing process of forgetting characterized by Pope John Paul II as a purification of memory must take place to clear the path towards a long awaited return to unity

Memory, the City and the Legacy of World War II in East Central Europe Uilleam Blacker,2019-06-27 After the Second World War millions of people across Eastern Europe displaced as a result of

wartime destruction deportations and redrawing of state boundaries found themselves living in cities that were filled with the traces of the foreign cultures of the former inhabitants In the immediate post war period these traces were not acknowledged the new inhabitants going along with official policies of oblivion the national narratives of new post war regimes and the memorializing of the victors In time however and increasingly over recent decades the former other pasts have been embraced and taken on board as part of local cultural memory This book explores this interesting and increasingly important phenomenon It examines official ideologies popular memory literature film memorialization and tourism to show how other pasts are being incorporated into local cultural memory It relates these developments to cultural theory and argues that the relationship between urban space cultural memory and identity in Eastern Europe is increasingly becoming a question not only of cultural politics but also of consumption and choice alongside a tendency towards the cosmopolitanization of memory
