Shakespeare's Imagined Persons The Psychology Of Role Playing And Acting:

Shakespeare's Imagined Persons P. Murray, 1996-05-10 Challenging our understanding of ideas about psychology in Shakespeare's time Shakespeare's Imagined Persons proposes we should view his characters as imagined persons A new reading of B F Skinner's radical behaviourism brings out how contrary to the impression he created Skinner ascribes an important role in human behaviour to cognitive activity Using this analysis Peter Murray demonstrates the consistency of radical behaviourism with the psychology of character formation and acting in writers from Plato to Shakespeare an approach little explored in the current debates about subjectivity in Elizabethan culture Murray also shows that radical behaviourism can explain the phenomena observed in modern studies of acting and social role playing Drawing on these analyses of earlier and modern psychology Murray goes on to reveal the dynamics of Shakespeare's characterizations of Hamlet Prince Hal Rosalind and Perdita in a fascinating new light

Shakespeare and the Art of Physiognomy Sibylle Baumbach, 2008 This book deals with the poetics of the human face the art of physiognomy and strategies of nonverbal communication in Shakespeare's plays It offers new insight into Shakespeare's modes of characterisation and his art of performance In Shakespeare's plays the human face is a focal point As an area where expression and impression meet and ideally correspond its reliability and trustworthiness are frequently put to the test sparking off a controversy which serves as a significant and highly challenging subtext to the overall plot Professor Baumbach studied at Heidelberg Cambridge and Munich and has taught at the universities of Warwick Giessen and Stanford She is now at the University of Innsbruck Her publications include Let me behold thy face Physiognomik und Gesichtslektueren in Shakespeares Tragoedien 2007 An Introduction to the Study of Plays and Drama as co author 2009 and Literature and Fascination 2015

Romantic Shakespeare Younglim Han, 2001 These two criticisms are based on the presumption that only a socially and intellectually elite reader is able to view the author's language in terms of its organic relationship with the text as a whole The Romantics focused on the interpretive reproduction of Shakespeare through sympathetic identification with his characters

Sadowski,2003 The theory considers human behavior in terms of functional equilibrium between the stable properties of the mind independent from the pressures of the sociocultural environment and the immediate situational context What we call character thus denotes an autonomous configuration of psychological elements which remains stable despite the changing external circumstances *Shakespeare-Jahrbuch* ,1995 *The Text as Evidence* ,1999

Gender and Literature Piotr

Sadowski,2001-09-28 Gender and Literature A Systems Study addresses the notion of gender as a social construct and presents evolutionary reasons for human psycho behavioral differentiation along the lines of sexual dimorphism of the reproductive and the related functions which produce the main genders of femininity and masculinity corresponding roughly with the functions of procreation and competition respectively These two gender oriented poles of human behavior are intermingled in the individual mind to produce a mixture of gender traits that underlie personality and behavior A statistical model of the overlap of the masculine and feminine traits generates eight specific gender types the feminine woman the womanly women the womanly man the androgynous man the androgynous woman the manly man the manly woman and the masculine man Characteristics of each type are offered together with examples from a wide range of literary texts
