Shaping Communities Carter L. Hudgins, Elizabeth C. Cromley, 1997 Ed SUNY Buffalo Revised papers from two conferences 1992 and 1993 *Shaping Letters, Shaping Communities: Multilingualism and Linguistic Practice in the Late Antique Near East and Egypt*, 2023-12-11 The volume explores linguistic practices and choices in the late antique Eastern Mediterranean It investigates how linguistic diversity and change influenced the social dimension of human interaction affected group dynamics the expression and negotiation of various communal identities such as professional groups of mosaic makers stonecutters or their supervisors in North Syria bilingual monastic communities in Palestine elusive producers of Coptic ritual texts in Egypt or Jewish communities in Dura Europos and Palmyra The key question is what do we learn about social groups and human individuals by studying their multilingualism and language practices reflected in epigraphic and other written sources **The New Monthly Magazine**, 1879 *Forthcoming Books* Rose Arny, 1997 **Official Journal of the European Communities**, 1998 Circulars of Information of the Bureau of Education United States. texts from the early medieval period are not only seen as mere reflections of ethnic social and cultural identities but also as media that gave meaning to social practices and were often intended to inspire guide change or prevent action directly or indirectly The written texts that have been transmitted to us can be seen as part of a cultural effort to shape the present by means of restructuring the past The often discordant voices of medieval authors allow modern historians to grasp something of the multiplicity of the early medieval world and of the disagreements conflicts idiosyncrasies and individual perceptions among the people who lived in that period Many contributions in this volume propose specific methods for studying changing identities They analyse differences between similar texts over time or specifically changes in texts in the course of their transmission The papers collected in this volume illustrate that texts were integral parts of a world in transformation
