Shaping Contemporary Suburbia Joseph P. Schwieterman, Martin E. Toth, 2001 **Beyond Burnham** Joseph P. Schwieterman, Alan P. Mammoser, 2009 Beyond Burnham provides a fascinating account of a century of visionary planning for metropolitan Chicago From Daniel Burnham and Edward Bennett's famed 1909 Plan of Chicago to the push for superhighways and airports to battles over urban sprawl the book showcases an illustrated portrait of the big personalities and the big plans they espoused The human face of planning appears in the interplay between public officials and citizen advocates Powerful institutions the Chicago Plan Commission and Regional Transportation Authority among others emerge to promote metropolitan goals Some efforts succeed while others fail but the work of planners lives on in efforts to shape new visions for the region's future **Illinois Issues** , 2002 Shaping Suburbia Paul G. Lewis, 1996 The American metropolis has been transformed over the past quarter century Cities have turned inside out with rapidly growing suburbs evolving into edge cities and technoburbs But not all suburbs are alike In Shaping Suburbia Paul Lewis argues that a fundamental political logic underlies the patterns of suburban growth and argues that the key to understanding suburbia is to understand the local governments that control it their number functions and power Using innovative models and data analyses Lewis shows that the relative political fragmentation of a metropolitan area plays a key part in shaping its suburbs
