Sharing Responsibility:

Sharing Responsibility Larry May, 1996-06 Are individuals responsible for the consequences of actions taken by their community What about their community's inaction or its attitudes In this innovative book Larry May departs from the traditional Western view that moral responsibility is limited to the consequences of overt individual action Drawing on the insights of Arendt Jaspers and Sartre he argues that even when individuals are not direct participants they share responsibility for various harms perpetrated by their communities Reconceiving International Refugee Law James C. Hathaway, 2023-07-24 Violence and other human rights abuses continue to force desperate people to migrate in search of protection Yet because the political and economic reasons that induced an historical openness to the arrival of refugees have largely withered away there is no longer a guarantee that any state will be prepared to receive these involuntary migrants Governments of both North and South are withdrawing from the international legal duty to provide potentially indefinite protection to any and all refugees who arrive at their borders The challenge is to reconceive refugee protection in a way that is reconcilable with the legitimate concerns of modern states yet which does not sacrifice the critical right of at risk people to seek asylum The essays in *Reconceiving International Refugee Law* offer a response to the concerns of many states that refugee protection has become no more than a back door route to permanent immigration and that its costs are not fairly apportioned among states Drawing on the research of leading migration scholars from around the world and vetted through dialogue with senior officials and non governmental experts this volume explores the potential for a shift to a robust and empowering system of temporary asylum supported by a pragmatic system of guarantees to share both the costs and human responsibilities of refugee protection *Becoming An Early Years Teacher: From Birth To Five Years* Johnson, Jessica, 2014-06-01 Offers key knowledge on theories of early learning and child development to support trainees in developing their role and skills as Early Years Teachers **The Oxford Handbook of International Refugee Law** Cathryn Costello, Michelle Foster, Jane McAdam, 2021 Provides a state of the art comprehensive analysis of the field of international refugee law Global in scope with 10 chapters focusing in detail on specific regions Critiques the status quo and sets the agenda for future academic research Book jacket Individuals, Groups, and Shared Moral Responsibility Gregory Mellema, 1988 This volume is a conceptual analysis of issues in group responsibility An attempt is made to identify factors which affect the degree to which individuals sharing responsibility for what happens bear responsibility for it as well as factors which are erroneously judged to have such an effect An examination of these issues leads to extended discussions of acting or failing to act in the company of others the sequence in which the agents in a group perform acts and group risk taking It is argued that the failure to understand such issues has contributed to a widespread uncertainty in contemporary society as to the moral implications of participating in group actions Global Health Justice and Governance Jennifer Prah Ruger, 2018 In a world beset by serious and unconscionable health disparities by dangerous contagions that can circle our

globalized planet in hours and by a bewildering confusion of health actors and systems humankind needs a new vision a new architecture new coordination among renewed systems to ensure central health capabilities for all Global Health Justice and Governance lays out the critical problems facing the world today and offers a new theory of justice and governance as a way to resolve these seemingly intractable issues A fundamental responsibility of society is to ensure human flourishing The central role that health plays in flourishing places a unique claim on our public institutions and resources to ensure central health capabilities to reduce premature death and avoid preventable morbidities Faced with staggering inequalities imperiling epidemics and inadequate systems the world desperately needs a new global health architecture Global Health Justice and Governance lays out this vision Professional Responsibility Ronald D.
