Sharing the Ganges Ben Crown,1997 **Shared Watercourses and Water Security in South Asia** Salman M.A. Salman,Kishor Uprety,2018-08-13 Shared water resources in South Asia face various challenges including scarcity population growth and climate change impacts on all the riparians Consequently national calls for water security have become louder As a result collaboration among the nations of South Asia for ensuring equitable sharing of such water resources has not been optimal While most countries do not have reliable systems for data generation those possessing some hydrological data consider them state secrets restricting their exchange Even when treaty obligations exist data sharing practices are ad hoc and the range of information shared is limited Thus negotiating new transboundary water treaties amongst South Asia s riparian countries has become a daunting task and enforcing existing ones remains a real challenge
