**Sharing the Past** William T. Hogg, John Kelman Sutherland Reid, 2009      **The Emerald International Handbook of Activist Criminology** Victoria Canning, Greg Martin, Steve Tombs, 2023-08-09 Collectively The Emerald International Handbook of Activist Criminology explores the contemporary terrain around new and emergent issues and forms of activism and offers cutting edge conceptualizations of the methodological and practical applications of activist engagement solidarity and resistance      *The Early Karaite Tradition of Hebrew Grammatical Thought* Geoffrey Khan, 2017-07-03 One of the earliest Karaite grammatical texts that have come down to us from the Middle Ages is the *Diqduq* by Ab Ya q b Y suf ibn N of Jerusalem It is a grammatical commentary on the Hebrew Bible This volume presents a critical edition of a large section of that Hebrew grammatical text together with an annotated English translation and a detailed analysis of its contents The analysis concerns the tradition of Hebrew grammatical thought that was developed in the Middle Ages by grammarians belonging to the Karaite movement of Judaism The work is an important contribution to the study of the history of Hebrew grammar and to the study of medieval Jewish thought in general It brings to light for the first time one of the major Hebrew grammatical texts from the tenth century which predates most of the works of the Spanish school of Hebrew grammar

**Community Benefits** Jovanna Rosen, 2023-03-14 In *Community Benefits* Jovanna P Rosen explores a new pattern in urban development local residents and community representatives leveraging large scale development projects for agreements that promise dedicated local benefits such as parks and jobs In general such development projects have not produced impactful benefits for local residents and often have contributed to significant community harm including gentrification and displacement In response community activists have launched a fight to control development using benefits sharing agreements to ensure that projects produced better outcomes for local residents While such agreements now exist across the nation the process of negotiating and enforcing them remains challenging This book dives deep into four case studies in Los Angeles Atlanta Seattle and Milwaukee to answer the following questions Who ultimately benefits from both the agreements and the projects in question How do benefits get delivered and who controls this process What works for these agreements to successfully produce community outcomes Rosen shows that without agreements that promote accountability developers and other project proponents can walk away from the negotiating table once the agreement is signed and the development moves forward This disregard for community benefits and priorities can leave community residents solely responsible for benefits delivery during implementation but with few viable avenues to ensure that outcomes materialize The cases reveal specific elements that agreements require to achieve success during implementation community participation managerial connections effective partnerships responsiveness and vigorous oversight with accountability mechanisms Although creating these conditions is difficult sometimes impossible and contingent on fragile processes Rosen concludes the book with recommendations for both the agreement negotiation and implementation phases to ensure success
