Sharon Kowalski Case:

The Sharon Kowalski Case Casey Charles, 2003 A gripping story of love and law The Sharon Kowalski Case chronicles one of the true landmarks in the fight for the rights of same sex partners fully framed for the first time within its social political and historical contexts **Sex Wars** Lisa Duggan, Nan D. Hunter, 1995 Sex Wars is a collection of writings by Duggan and Hunter that brings together the best of the important work they have done on sexual politics in America over the past decade Sex Wars traces the development of this politics and its deployment in three different arenas speech and representation legal regulation and scholarship **The Gay Revolution** Lillian Faderman, 2015-09-08 The fight for gay lesbian and trans civil rights is the most important civil rights issue of the present day Based on rigorous research and more than 150 interviews The Gay Revolution tells this unfinished story not through dry facts but through dramatic accounts of passionate struggles with all the sweep depth and intricacies only an award winning activist scholar and novelist like Lillian Faderman can evoke A defining account this is the most complete and authoritative book of its kind **Family Matters** Marie-Amélie George, 2024-08-01 In 1960 consensual sodomy was a crime in every state in America Fifty five years later the Supreme Court ruled that same sex couples had the fundamental right to marry In the span of two generations American law underwent a dramatic transformation Though the fight for marriage equality has received a considerable amount of attention from scholars and the media it was only a small part of the more than half century struggle for queer family rights Family Matters uncovers these decades of advocacy which reshaped the place of same sex sexuality in American law and society and ultimately made marriage equality possible This book however is more than a history of queer rights Marie Am lie George reveals that national legal change resulted from shifts at the state and local levels where the central figures were everyday people without legal training Consequently she offers a new way of understanding how minority groups were able to secure meaningful legal change **Moral Controversies** Steven Jay Gold, 1993 **Beyond Crisis** Nancy F. McKenzie, 1994 Analyzes the crisis on American health care with examinations of the array of health care proposals including the Clinton health care plan **The Social Construction of Difference and Inequality** Tracy E. Ore, 2000 This anthology examines the social construction of race class gender and sexuality and the institutional bases for these relations While other texts discuss various forms of stratification and the impact of these on members of marginalized groups Ore provides a thorough discussion of how such systems of stratification are formed and perpetuated and how forms of stratification are interconnected The anthology supplies sufficient pedagogical tools to aid the student in understanding how the material relates to her his own life and how her his own attitudes actions and perspectives may serve to perpetuate a stratified system **Reader's Guide to Lesbian and Gay Studies** Timothy Murphy, 2013-10-18 The Reader s Guide to Lesbian and Gay Studies surveys the field in some 470 entries on individuals Adrienne Rich arts and cultural studies Dance ethics religion and philosophical issues Monastic Traditions historical figures periods and ideas Germany between the World Wars language
