Shattered Rhythms:

The Gay Detective Novel Judith A. Markowitz, 2015-02-16 Gertrude Stein called it the only really modern novel form that has come into existence yet the mystery genre was a century old before it featured its first gay main character in a novel. Since then gay and lesbian detective fiction has been one of the fastest growing segments of the genre. It incorporates gay and lesbian cultural elements and offers crossover appeal. Its authors call upon a century of development in the mystery genre while providing new more accurate images of lesbians and gay men than generally found in mainstream literature and popular media. This groundbreaking study of gay and lesbian detective fiction examines mystery series and historically significant stand alone novels published since the early 1960s. Part I is an overview that describes how these novels make gay and lesbian life visible and forge new powerful images. It also examines how they fit into the larger history of mystery fiction. The series analyses in Part II are grouped according to the type of main character: police officer, private investigator, amateur sleuth, etc. Each section discusses main and secondary characters of that type, characteristic themes for the group, and more. The analyses of individual series cover main characters, themes, plot points, and other elements. Comments from authors interviewed for this book play a central role in those analyses. Part III lists series spanning themes e.g. homophobia, the closet, gay marriage, and the novels and series that address each of those themes. *The Post-colonial Space* Nandini Sahu, 2007 The 1980s and after has created a typical post modern anxiety with the advent of Salman Rushdie as an influential diaspora writer. This book is conceptualized around a series of topics like post modern anxiety, identity politics, national and self definition, the problem of exile and diaspora, and an interest to examine the way Indian English literature has established itself and set up as a separate discipline while the bright and brilliant promises about Indian English literature rejuvenate us. Some pertinent questions hang above us related to our identity, historiography, and the political and national affiliation of a writer. Does the absence of a national identity affect the tone of a creative writer and the mindset of his readers as well? Does the post colonial space invite and initiate the Indian English writers and the diaspora writers to take their self and national identity as the metaphor of their creativity? How do they define and justify themselves? What do they mean by Indianness, nation, and narration? Women issues, subaltern conditions, nativism, post colonialism, post modernism, and essentialism. What are their literary and extra literary concerns? Do they succeed in giving a clear image to the indigenous culture and the narrative traditions of India? What linguistic and stylistic innovations are being introduced by the post colonial writers? This book is a humble attempt to point out some of these issues by the editor and the contributors. The present analytical study will prove an ideal reference book to students, researchers, and teachers of Indian English literature. This Is Rhythm Gayle F. Wald, 2025-04-10 The remarkable life story of Ella Jenkins, the first lady of children's music. Ella Jenkins was one of the most influential musicians of the twentieth century.
