Linguistics and Language Behavior Abstracts , 2006-10 **Chinese Dialect Classification** Richard VanNess Simmons, 1999-11-15 This volume is an investigation and classification of dialects along the Wu and Jiang Hwai Mandarin border in China s eastern Yangtze Valley It is the first monograph length study to critically question the traditional single criterion of initial voicing for the classification of Wu dialects and propose a comprehensive comparative framework as a more successful alternative Arguing that dialect affiliation is best determined through analysis of dialect correspondence to common phonological systems the author develops a taxonomic analysis that definitively distinguishes Common Northern Wu and Mandarin dialects By clarifying dialect affiliation in the Wu and Mandarin border region this volume makes significant contributions to our understanding of the true nature of the region s dialects and their history Using primarily data drawn from the author s own fieldwork the volume contains copious comparative examples and an extensive lexicon of the Old Jintarn dialect **Chinese Language(s)** Maria Kurpaska, 2010-05-26 The major aim of the book is to trace the current structuring of the Chinese language s on the ground of Chinese linguistics The research presented is based on the newest and most renowned sources namely The Great Dictionary of Modern Chinese Dialects and the Language Atlas of China The author discusses the role The Great Dictionary plays in analyzing the spectrum of linguistic differentiation in China and gives a detailed account of the kind of information the dictionary provides As background she sketches the development and current state of Chinese dialectology and dialect research One of the author s aims is to show respect for the grand achievement the Dictionary undoubtedly is but also to emphasize a critical distance to some of the views presented in it Apart from being an analysis of this particular Dictionary the book presents data about the state of modern Chinese dialectology It provides information about different classifications of the dialects and explains on what basis the classifications are made Looking at Chinese dialectology from a Western point of view the author aims to understand and present the Chinese perspective The book fills an important gap in the field of Western sinology So far despite lively discussions concerning the status of the varieties of Chinese and their taxonomy full scale studies on Chinese dialects have been almost non-existent in the Western World *The Hakka Dialect* Mantaro J. Hashimoto, 2010-06-10 Professor Hashimoto describes the formation phonology and syntax of the Hakka dialects 方國光 Paul Fu-mien Yang, 1981 *Southern Min* Bit-Chee

Kwok,2018 This book adopts a phylogenetic perspective in explaining the linguistic diversity within the major Chinese dialect group of Southern Min This book advances our knowledge of not only the linguistic importance of Southern Min but also the methodology of Chinese dialect classification Introduction to Chinese Dialectology Margaret Mian Yan,2006
