Problems in Intellectual Freedom and Censorship Arthur James Anderson, 1974 **Problems in Intellectual Freedom and Censorship** Arthur J. Anderson, 1974 Problems in Intellectual Freedom and Censorship, by A. J. Anderson Arthur James Anderson, 1974 Dealing with Selection and Censorship Wisconsin. Department of Public Instruction, 1999

This handbook focuses on intellectual freedom as it relates to school library media centers and public libraries. The purpose of this handbook is to help public libraries and school districts develop and adopt necessary policies and procedures that will build a solid foundation for intellectual freedom as part of the community and school climate and provide sources of assistance when an expression of concern or a complaint occurs. Although it contains suggestions for classroom teachers faced with challenges, the handbook does not have a major focus on resources selected specifically for classroom instruction. It is divided into four sections: School District Policies and Procedures, Selection and Reconsideration, School District Policies and Procedures, Internet Access, Public Library Policies and Procedures, Selection and Reconsideration, and Public Library Policies and Procedures, Internet Access. Both of the Selection and Reconsideration sections contain information on the philosophical base, statutory base, resource selection policy, reconsideration policy, staff development, communication, and public information and reconsideration in practice. The Internet Access sections include information on Internet filters, Internet policy, staff development, and communication, and public information. Appendices include a selected bibliography, Wisconsin statutes and administrative rules, Intellectual Freedom Statement, challenges to materials in school libraries, and sources of assistance. AEF

Censorship and Selection Henry Reichman, 2001-05. Censorship: The word itself sparks debate, especially when the context is the public school. Since the publication of the second edition of this landmark book in 1993, wired classrooms, legal challenges, and societal shifts have changed the landscape for the free exchange of ideas. Completely revised and updated, this new edition remains the most comprehensive guide for protecting the freedom to read in schools. For school librarians and media specialists, teachers, and administrators, Reichman covers the different media, including books, school newspapers, and the Internet, the important court cases, including recent litigations involving Harry Potter, the Internet, and Huck Finn, the issues in dispute, including violence, religion, and profanity, and how the laws on the books can be incorporated into selection policies. An entire chapter is devoted to troubleshooting and answering the question of "What do we do if...?" Look no further for the best and most specific information on providing access and facing challenges to intellectual freedom. You'll find answers if you are asking questions like these: What is the distinction between making selection decisions and censoring? The Challenges of Intellectual Freedom and Censorship Judith F. Krug, 1970 **Die literarische Zensur als Problem der Soziologie der Politik** Ulla Otto, 1968 **ARBA Guide to Library Science Literature, 1970-1983** Donald G. Davis, Charles D.
