Problems Policies Of The British In In:

Problems of British Economic Policy, 1870-1945 Jim Tomlinson, 2013-11-05 Most historical accounts of economic policy set out to describe the way in which governments have attempted to solve their economic problems and to achieve their economic objectives Jim Tomlinson however focuses on the problems themselves arguing that the way in which areas of economic policy become problems for policy makers is always problematic itself that it is never obvious and never happens naturally This approach is quite distinct from the Marxist the Keynesian or the neo classical accounts of economic policy the schools of thought which are described and criticized in the introduction Subsequent chapters use the issues of unemployment the gold standard and problems of trade and Empire to demonstrate that these competing accounts all obscure the true complexities of the process Because they adhere to simple assumptions about the role of economic theory or of vested interests previous histories have been unable adequately to explain the dramatic change after the First World War in attitudes to unemployment for instance or the decision to return to gold in 1925 Jim Tomlinson surveys the institutional circumstances the conflicting political pressures and the theories offered at the time in an attempt to discover the conditions which characterized the questions as economic problems and contributed to the choice of solutions The result is a sophisticated and intellectually compelling account of matters which have remained at the forefront of political debate since its first publication in 1981

The Irish Question as a Problem in British Foreign Policy, 1914-18 Stephen Hartley, 1987-02-02

British Politics and Foreign Policy, 1727-44 Professor Jeremy Black, 2014-07-28 Following on from Jeremy Black s previous studies on eighteenth century foreign policy *Politics and Foreign Policy under George and The Collapse of the Anglo French Alliance* this new book covers the period from the end of the Anglo French alliance in 1731 to the declaration of war in 1744 The book draws upon a range of foreign and domestic sources making particular use of foreign diplomatic records in order to illuminate the complex and often opaque workings of the British state at a turbulent period of European history

British Politics and the Environment John McCormick, 2013-11-05 Britain has an immense range of environmental law and the reputation for largely ignoring it John McCormick describes the fascinating story of the political growth of that law and the pressures the compromises the parliamentary and civil service opportunism that allowed the edifice to grow over the greater part of a century He tells the story of the absolute change in political climate over the last ten years and deciphers the nature of Thatcher s conversion to greenery He explains why everyone who cared about the environment became embattled and above all how the old methods of sensible compromise were banished probably for ever not least because of the government s obsession with secrecy What then are the new political means of compelling change on a reluctant parliament Everything is at stake from welfare to water from forests to fishing Where are we now What are the likely pressures both internal and from Europe and the rest of the world to make Britain pass more environmentally sound laws and perhaps more importantly to observe them McCormick provides a gripping picture of the central issues of the

system and of the battleground Originally published in 1991 Forging Industrial Policy Frank Dobbin,1994 This book explores 19th century railroad policies in the United States France and Britain to identify the roots of nations modern industrial policy styles **Problems and exercises in British history** J. S. Lindsey (History teacher),1911 *British and Continental Labour Policy* Bo Gabriel Montgomery,1922 Why Isn't Government Policy More Preventive? Paul Cairney,Emily St Denny,2020-01-09 If prevention is better than cure why isn t policy more preventive Policymakers only have the ability to pay attention to and influence a tiny proportion of their responsibilities and they engage in a policymaking environment of which they have limited understanding and even less control This simple insight helps explain the gap between stated policymaker expectations and actual policy outcomes Why Isn t Government Policy more Preventive uses these insights to produce new empirical studies of wicked problems with practical lessons The authors find that the UK and Scottish governments both use a simple idiom prevention is better than cure to sell a package of profound changes to policy and policymaking Taken at face value this focus on prevention policy seems like an idea whose time has come Yet prevention is too ambiguous until governments give it meaning No government has found a way to turn this vague aim into a set of detailed consistent and defensible policies This book examines what happens when governments make commitments without knowing how to deliver them It compares their policymaking contexts roles and responsibilities policy styles language commitments and outcomes in several cross cutting policy areas including health families justice and employability to make sense of their experiences The book uses multiple insights from policy theory to help research and analyse the results The results help policymakers reflect on how to avoid a cycle of optimism and despair when trying to solve problems that their predecessors did not *Problems and Policy in Public Assistance* Hilary Moorehead Leyendecker,1955 **A History of Modern Banks of Issue** Charles Arthur Conant,1896 *British Policy and the Application of Reforms for the Armenians in Eastern Anatolia, 1877-1897* Musa Şaşmaz,2000 Problems of the Pacific John Bell Condliffe,1928 **President Wilson, His Problems and His Policy** Henry Wilson Harris,1917 **Problems and Perspectives in Irish History Since 1800** David George Boyce,2004 This volume of essays in honor of Patrick Buckland reflects the making of modern Irish historical writings It addresses several key issues and topics Irish emigration and its consequences for the migrants the host country and the land they left behind the sharpening of sectarian conflict in Ireland and efforts to overcome this Anglo Irish relations and in particular the role of Irish nationalism in this context and the relationship between politics and culture **The Problem of Group Responsibility to Society** John Herman Randall (Jr.),1922 **Alternative Approaches to British Defence Policy** John Baylis,1983 Journal of the British Institute of International Affairs ,1924 **Bulletin of the Atomic Scientists** ,1960-03 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *The Saturday Review of Politics, Literature, Science and Art* ,1896
