Procedural Politics Issues Influence And Institutional Choice In The European Union:

Procedural Politics Joseph Jupille, 2004-08-30 This book was first published in 2004 Under what conditions and in what ways and with what effects do actors engage in politics with respect to rather than merely within political institutions Using multiple methods and original data Procedural Politics develops a theory of everyday politics with respect to rules procedural politics and applies it to European Union integration and politics Assuming that actors influence maximizers it argues and demonstrates that the jurisdiction ambiguity of issues provides opportunities for procedural politics and that influence differences among institutional alternatives provide the incentives It also argues and demonstrates that procedural politics occurs by predictable means most notably involving procedural coalition formation and strategic issue definition and exerts predictable effects on policymaking efficiency and outcomes and long run institutional change Beyond illuminating previously under appreciated aspects of EU rule governance these findings generalize to all rule governed political systems and form the basis of fuller accounts of the role of institutions in political life

Procedural Politics Joseph Jupille, 2004-08-30 After developing an argument to determine when actors will try and reshape political rules rather than operate within them Joseph Jupille applies it to European Union EU integration and politics Jupille demonstrates that the European Union is far more deeply rule governed than is traditionally understood and accordingly reveals a much more complete picture of the role of rules in political life than is available in most existing research

The Political Economy of the 2014-2020 Common Agricultural Policy Johan F.M. Swinnen, 2015-07-30 After five years of debates consultations and negotiations the European institutions reached an agreement in 2013 on the Common Agricultural Policy CAP for the 2014-2020 period The outcome has major implications for the EU's budget and farmers incomes but also for Europe's environment its contribution to global climate change and to food security in the EU and in the world It was decided to spend more than 400 billion during the rest of the decade on the CAP The official claims are that the new CAP will take better account of society's expectations and lead to far reaching changes by making subsidies fairer and greener and making the CAP more efficient It is also asserted that the CAP will play a key part in achieving the

overall objective of promoting smart sustainable and inclusive growth However there is significant scepticism about these claims and disappointment with the outcome of the decision making the first in which the European Parliament was involved under the co decision procedure In contrast to earlier reforms where more substantive changes were made to the CAP the factors that induced the policy discussions in 2008 13 and those that influenced the decision making did not reinforce each other On the contrary they sometimes counteracted one another yielding an imperfect storm as it were resulting in more status quo and fewer changes This book discusses the outcome of the decision making and the factors that influenced the policy choices and decisions It brings together contributions from leading academics from various disciplines and policy makers and key participants in the process from the European Commission and the European Parliament *European Union* Jeremy Richardson, 2006-01-16 This best selling book delivers a comprehensive introduction to the policy making processes at work in the European Union Written by some of the leading authorities in the field this new edition has been significantly improved to make it even more accessible for second and third year undergraduates Addressing some of the more contentious areas in order to stimulate students interest this book also continues to cover the vital elements of EU courses including theory history institutions policy relations with member states external relations enlargement A companion website also supports this edition with a clear guide to more technical material such as statistics as well as regular updates This volume is essential reading for all students of politics and the European Union *Journal of European Integration* ,2007 *Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur* ,2004 *Choice* ,2004 *The President's Annual Report* European University Institute, 2001 **Visions, Votes, and Vetoes** Jean Marie Palayret, Helen S. Wallace, 2006 The empty chair crisis of 1965 resolved in the Luxembourg Compromise of 1966 forms part of the dramatic past of the European Union and is for many a turning point in European political integration This volume based on new research revisits these events It sheds fresh light on the mixed motives of the principal member states European institutions and third country actors and identifies the shadows cast over subsequent legal and political practice The book results from a collaborative project among historians lawyers and political scientists It draws on new archival material and on many insights from practitioners both some involved in the events of 1965 66 and others engaged in subsequent negotiations in the Council of the EU Traces of these events persist in the consensus oriented culture in the Council where a concern to avoid sharply polarised confrontation limits recourse to active voting even though the formal use of qualified majority voting has been greatly extended Arguments over agricultural policy the EU budget and world trade negotiations thus continue to provide occasions for some member states to insist on their very important interests This book stems from a co funded project of the Fondation Paul Henri Spaak in Brussels and of the European University Institute and the Historical Archives of the European Union in Florence *EUSA Review* ,2005 **American Book Publishing Record** ,2003 **EU Lobbying - Principals, Agents and Targets** Irina Michalowitz, 2004 Die Autorin untersucht mithilfe eines Principal Agent und Tauschansatzes ob

verallgemeinerbares strategisches Verhalten in europäischem Lobbying existiert wie es systematisiert werden kann und welche Auswirkungen es hat. Zunächst enthält die Studie eine Typologie von unterschiedlichen Lobbyisten ihren Auftraggebern und Lobbyingadressaten deren Beziehungen vom Tausch von Information und Einfluss bestimmt sind. Diese Beziehungen werden im zweiten Teil anhand einer empirischen Studie der Interessenvertretung in den Bereichen Verkehr und Telekommunikation analysiert, gefolgt von einer Diskussion der Auswirkungen strategischen Lobbyings auf europäische Rechtsetzung.
