Kathedralstädte in ähnlicher Masse betroffen waren. Er erforscht im Einzelnen systematisch die Mentalitäten und Intentionen, die die Eroberer zum Bau von Burgen und teilweise aufwändigen Residenzen zur Errichtung von oft monumentalen Kathedralen und urbanen Klosterkirchen und schließlich zur durchgreifenden Umgestaltung der innerstädtischen Infrastruktur und sogar zur vielfachen Verlegung der Bischofssitze in andere Städte veranlassten. From Norman Conquest to Magna Carta Christopher Daniell, 2013-10-08 Using a combination of original sources and sharp analysis, this book sheds new light on a crucial period in England's development. From Norman Conquest to Magna Carta is a wide-ranging history of England from 1066 to 1215, ideal for students and researchers throughout the field of medieval history. Starting with the build-up to the Battle of Hastings and ending with the Magna Carta, Christopher Daniell traces the profound change England underwent over the period from religion and the life of the court through to arts and architecture. Central discussion topics include how the Papacy became powerful enough to proclaim Crusades and to challenge kings; how new monastic orders revitalized Christianity in England and spread European learning throughout the country; how new Norman conquerors built cathedrals, monasteries and castles which changed the English landscape forever; how by 1215 the king's administration had become more sophisticated and centralized; how the acceptance of the Magna Carta by King John in 1215 would revolutionize the world in centuries to come. This volume will make essential reading for all students and researchers of medieval history. **Byzantinische Zeitschrift** Karl Krumbacher, 1981 Vol. 44 is Festschrift for Franz Dolger zum 60. Trim Co. Meath is one of Ireland's best-known medieval towns and yet this is the first major work on the town for almost 150 years. Drawing on documentary, archaeological, architectural and cartographic evidence, the book pieces together a picture of Trim in the middle ages. The origins and evolution of the town are traced and charted in detail as are its administration, its trading and commercial functions, its role as an ecclesiastical centre and its topographical layout. The book puts the development of the town in the context of its pre-Anglo-Norman role and against the backdrop of the extensive Anglo-Norman lordship of which it was the administrative, judicial and financial centre. As a case study, this book is intended as a contribution to the understanding and interpretation of urban life in medieval Ireland. **The fourth crusade revisited** Pierantonio Piatti, 2008.
