Kayne, 2008-10-16 Its twenty one commissioned chapters serve two functions they provide a general and theoretical introduction to comparative syntax its methodology and its relation to other domains of linguistic inquiry and they also provide a systematic selection of the best comparative work being done today on those language groups and families where substantial progress has been achieved This volume will be an essential resource for scholars and students in formal linguistics Jacket **Verb Movement and the Syntax of Kashmiri** R.M. 5 **Themes in Arabic and Hebrew Syntax** J. Ouhalla, U. Shlonsky, 2012-12-06 The aim of this enterprise is to assemble
 together in one volume works on various syntactic aspects of Arabic and Hebrew in the hope that it will spur further
 comparative work within the Semitic family at the level of richness achieved in other language families such as Germanic and
 Romance Although a substantial amount of work on the syntax of Arabic and Hebrew already exists in various forms volumes
 of the type we have attempted are still practically non-existent Moreover apart from some notable exceptions existing studies
 rarely take a systematic within family comparative stance towards the phenomena they discuss although cross references
 between studies on Arabic and Hebrew are not uncommon Obviously we would ideally have preferred the volume to include
 papers on numerous other Semitic languages including the languages of the Ethio-Semitic branch as well as numerous
 spoken varieties of Arabic that have yet to be explored Unfortunately this was not possible due to circumstances beyond our
 control We very much hope that the existence of this volume will make more inclusive volumes on the syntax of the Semitic
 languages only a matter of time
