

READING COMPREHENSION STRATEGIES

BEFORE READING

- **Scan and Predict:** look at the title, pictures, captions, headings, etc. and take a guess on what the text will be about.

- **Activate Background Knowledge:** what do you already know about the topic?

- **Ask Questions:** ask yourself WH questions about the topic. What do you want to find out from the text? Is there anything you already know about this topic?

"You should also preview any comprehension questions before reading so you know what information to look for!"

DURING READING

- **Make Connections:** relate what you read to your own life, experiences, or even to other texts or characters!

- **Paraphrase:** pick out the most important parts and rephrase them in your own words.

- **Reread:** if you stopped paying attention or got distracted, go back and reread the text.

- **Visualize:** create a picture or movie in your mind that includes all of the details described in the text.

- **Ask Questions:** what are you wondering about while reading? Ask WH questions while you're reading and see if the answers come up in the text!

AFTER READING

- **Main Idea & Summarize:** what was the main point or concept of the text? Can you retell it in your own words?

- **Text Structure:** what was the purpose of the passage? Does it tell a story, describe something, compare and contrast, identify cause and effect, give steps, or explain a problem and solution?

- **Review and Reread:** review the questions you asked yourself before and during reading. Were they all answered? If not, go back and double-check the text!

"Determine the question/answer relationship for comprehension questions! (i.e. right there, think and search, etc.)"
