According to the UN Conference on Trade and Development Thailand has been among eight priority destinations for foreign investment since 2012 Factors weighing on growth in 2016 will include an ongoing economic slowdown weakening global demand for Thai exports and growing levels of consumer debt The government's investment promotion agenda while perhaps more complicated than in previous years also addresses the dual challenge of labour shortages and the middle income trap through promotion of both labour intensive and high tech industries while potential membership in two major trade blocs could see regional and international exports soar in the coming years Although the near term forecast is dampened by global volatility weakening demand and the impact of China's slowdown trade in Thailand will remain on an upwards trajectory in 2016 and investment though unlikely to meet government targets is nonetheless expected to bounce back from a challenging 2015

**Imperialism in the Twenty-First Century** John Smith, 2016-01-22 Provides an examination of the relationship between the core capitalist countries and the rest of the world in the age of neoliberal globalization Deploying a Marxist methodology Smith begins by tracing the production of certain iconic commodities the T shirt the cup of coffee and the iPhone and demonstrates how these generate enormous outflows of money from the countries of the Global South to transnational corporations headquartered in the core capitalist nations of the Global North From there Smith draws on his empirical findings to theorize the current shape of imperialism He argues that the core capitalist countries need no longer rely on military force and colonialism although these still occur but increasingly are able to extract profits from workers in the Global South through market mechanisms and by aggressively favoring places with lower wages the phenomenon of labor arbitrage From publisher description **Britannica Book of the Year** ,2012 The Publishers Weekly ,1884
