The Social-Structural Determinants of Health Sofie Hass, Jessica R. Corno, Aida Wisecup, 2025-07-29 Today more than ever society is faced with the unequivocal question of developing a better understanding of the interconnectedness between social forces environmental experiences and the outcomes of mental and physical health and well being Post COVID 19 considerations have led to an unprecedented need to establish a more interdisciplinary understanding of the role that social construction has on health and illness and the diverse set of ways that our social world plays in the identification treatment and experience of various diseases and health related conditions Social life is intricately linked to quality of life variables related to health both mental and physical Thus we recognize the invaluable contribution to the field of medicine made by a comprehensive understanding of health wellness and social functioning as a byproduct of the study of the human body and mind However we posit that this knowledge would be incomplete without examining the close relationship between health wellness and those aspects of social environment that create conditions that can either strengthen or undermine the wellbeing of individuals groups of people and entire communities the social structural determinants of health

Dying for a Paycheck Jeffrey Pfeffer, 2018-03-20 In one survey 61 percent of employees said that workplace stress had made them sick and 7 percent said they had actually been hospitalized Job stress costs US employers more than 300 billion annually and may cause 120 000 excess deaths each year In China 1 million people a year may be dying from overwork People are literally dying for a paycheck And it needs to stop In this timely provocative book Jeffrey Pfeffer contends that many modern management commonalities such as long work hours work family conflict and economic insecurity are toxic to employees hurting engagement increasing turnover and destroying people s physical and emotional health and also inimical to company performance He argues that human sustainability should be as important as environmental stewardship You don t have to do a physically dangerous job to confront a health destroying possibly life threatening workplace Just ask the manager in a senior finance role whose immense workload once handled by several employees required frequent all nighters leading to alcohol and drug addiction Or the dedicated news

media producer whose commitment to getting the story resulted in a sixty pound weight gain thanks to having no down time to eat properly or exercise Or the marketing professional prescribed antidepressants a week after joining her employer In Dying for a Paycheck Jeffrey Pfeffer marshals a vast trove of evidence and numerous examples from all over the world to expose the infuriating truth about modern work life even as organizations allow management practices that literally sicken and kill their employees those policies do not enhance productivity or the bottom line thereby creating a lose lose situation Exploring a range of important topics including layoffs health insurance work family conflict work hours job autonomy and why people remain in toxic environments Pfeffer offers guidance and practical solutions all of us employees employers and the government can use to enhance workplace wellbeing We must wake up to the dangers and enormous costs of today's workplace Pfeffer argues Dying for a Paycheck is a clarion call for a social movement focused on human sustainability Pfeffer makes clear that the environment we work in is just as important as the one we live in and with this urgent book he opens our eyes and shows how we can make our workplaces healthier and better
