Morning Routine Usa Returns:

In Service to America Marvin Schwartz, 1988-01-01 **Cultures of Color in America** Sybil Lassiter, 1998-01-26 By the year 2000 more than one third of Americans will be persons of color and by 2050 non white persons will constitute 45% of the population Immigration from European countries has decreased but the number of migrants from countries of non white ancestry has increased Consequently many Americans are showing a growing interest in knowledge about the values and behaviors of their diverse associates This book offers an insight into the diverse lifestyles for some cultures of color in American society Although all members of these cultures may not identify themselves as persons of color the cultures were selected because they incorporate a significant number of non white individuals Each chapter presents an overview of a cultural group that includes a brief history migration trends traditional and modern family practices religious beliefs concepts about death and dying nutritional preferences health behaviors and diseases often found among its members The cultures discussed are Africans African Americans Alaskans Asians Haitians Hawaiians Native Americans Puerto Ricans and West Indians This book should be of interest to academics health care professionals sociologists clergy and laypersons Its goal is to alleviate fear and prejudice through informed understanding *Getting Saved in America* Carolyn Chen, 2014-08-31 What does becoming American have to do with becoming religious Many immigrants become more religious after coming to the United States Taiwanese are no different Like many Asian immigrants to the United States Taiwanese frequently convert to Christianity after immigrating But Americanization is more than simply a process of Christianization Most Taiwanese American Buddhists also say they converted only after arriving in the United States even though Buddhism is a part of Taiwan s dominant religion By examining the experiences of Christian and Buddhist Taiwanese Americans *Getting Saved in America* tells a story of how people become religious by becoming American and how people become American by becoming religious Carolyn Chen argues that many Taiwanese immigrants deal with the challenges of becoming American by becoming religious Based on in depth interviews with Taiwanese American Christians and Buddhists and extensive ethnographic fieldwork at a Taiwanese Buddhist temple and a Taiwanese Christian church in Southern California *Getting Saved in America* is the first book to compare how two religions influence the experiences of one immigrant group By showing how religion transforms many immigrants into Americans it sheds new light on the question of how immigrants become American *History of the United States of America Under the Constitution* James Schouler, 1894 *History of the United States of America* James Schouler, 1894 **History of the United States of America, Under the Constitution: 1817-1831. Mobility between Africa, Asia and Latin America Ute Röschenthaler, Alessandro Jedlowski, 2017-08-15 Trade connections and cultural exchange between Africa and the rest of the global South have existed for centuries Since the end of the Cold War these connections have expanded and diversified dramatically with emerging economies such as China India and Brazil becoming increasingly important both as sources of trade and as a destination for African migrants But while these trends have attracted growing scholarly attention there has so far been little appreciation of the sheer breadth and variety of this exchange or of its deeper social impact This collection brings together a wide array of scholarly perspectives to explore the movement of people commodities and ideas between Africa and the wider global South with rich empirical case studies ranging from Senegalese migrants in Argentina to Lebanese traders in Nigeria The contributors argue that this exchange represents a form of globalization from below which defies many of the prevailing Western assumptions about migration and development and which can only be understood if we consider the full range and complexity of migrant experiences Multidisciplinary in scope Mobility between Africa Asia and Latin America is essential reading for students and scholars across the social sciences interested in the interconnected economic and social make up of the global South
