Female founders in Byzantium and beyond Lioba Theis, Margaret Mullett, Michael Grünbart, 2014 This volume presents
 the results of a scholarly meeting which focused on the patronage of women in the Byzantine Empire. In their scope the
 articles address broadly not only the founding or re-founding of churches and monasteries but also their rich decoration as
 well as numerous smaller donations. In spite of increased attention to gender research in recent years a comparative
 treatment of the legal and economic potential that women in Byzantium could exercise in order to exert independent
 influence has been lacking; thus a gender-specific viewpoint for the volume was intentionally chosen. *Desire and Denial in*
