Interrogating Racism in Qualitative Research Methodology Gerardo R. López, Laurence Parker, 2003 The areas of race class and gender have generated increasing attention within the academy providing a strong critique of the supposed neutrality of the research process Interrogating Racism in Qualitative Research Methodology presents qualitative studies and essay reviews that connect these emerging theories to research and practice in the public schools as well as in institutions of

higher education Each chapter explores an emerging area of legal scholarship known as critical race theory and adopts a penetrating perspective that recognizes the normality and invisibility of racism in all aspects of society This book explores the links between critical race theory and qualitative research methodology and it interrogates how race connects and conflicts with other areas of difference and is never entirely absent from the research process Structures of Judicial Decision Making from Legal Formalism to Critical Theory Roy Lavon Brooks,2005 To order a paperback version of this book please click here This is a general book on jurisprudence designed for both the novice and more experienced student which makes it suitable for first year law students It is the first book to distinguish and connect traditional theories of judicial decision making e g legal formalism textualism legal realism and legal process with critical process which is critical theory transformed from a theory of legal criticism into a theory of judicial decision making Brooks breaks new ground on several other fronts as well he employs an innovative framework that divides judicial decision making models into the logical method and the policy method offers a more nuanced conceptualization of judicial policy formulation in which judges are seen as not only making policy but also and more typically as discovering and vindicating policy redefines policy making in a manner that is different from our traditional understanding of the term and synthesizes critical process into three judicial models symmetrical asymmetrical and hybrid The book is written in two parts Part 1 Traditional Process discusses five major traditional judicial models each reflective of either the logical method or the policy method Part 1 ends with a synthesis of the traditional models dividing them into three categories which judges who have used the book find to be most useful Part 2 Critical Process begins with a discussion of critical theory s central theme and operating elements and then transforms these features into a theory of outsider oriented judicial decision making something judges can actually use in deciding cases Critical theory is thus transformed into critical process **Encyclopedia of Sustainability** Robin Morris Collin,Robert W.
