Weir, 1997-05-22 The book is extremely well balanced in each section there is usually an argument for and against the positions raised It is a useful and well thought out text It will make people think and discuss the problems raised which I think is the editor s main purpose Journal of Medical Ethics a volume that is to be commended for the clarity of its contributions and for the depth it gains from its narrow focus In places this is a deeply moving as well as closely argued book Times Literary Supplement This work is an excellent historical and philosophical resource on a very difficult subject Choice This collection of well written and carefully argued essays should be interesting illuminating and thought provoking for students clinicians and scholars New England Journal of Medicine This book is highly recommended Pharmacy Book Review This is a well balanced collection and the essays are of uniformly good quality very readable should be useful to anyone interested in this topic Doody s Health Sciences Book Review Home Page Physician Assisted Suicide continues in the fine tradition of the Medical Ethics series published by Indiana University Press Chapters are authored by outstanding scholars from both sides of the debate providing a balanced in depth exploration of physician assisted suicide along clinical ethical historical and public policy dimensions It is important reading for those who want to better understand the complex multilayered issues that underlie this emotionally laden topic Timothy Quill M D Robert Weir has produced the finest collection of essays on physician assisted dying yet assembled in one volume Physician assisted dying involves ethical and legal issues of enormous complexity The deep strength of this anthology is its multi disciplinary approach which insightfully brings to bear interpretations from history moral philosophy religion clinical practice and law This is a subject much like abortion that has divided America This volume provides balanced scholarship that will help inform opinions from the hospital and hospice bedside to the halls of federal and state legislatures and courtrooms Lawrence O Gostin Co Director Georgetown Johns Hopkins Program on Law and Public Health This book is a timely and valuable contribution to the debate Highly recommended for academic collections Library Journal These essays shed light and perspective on today s hotly contested issue of physician assisted suicide The authors were selected not only because of their experience and scholarship but also because they provide readers with differing points of view on this complex subject and a potential moral quandary for us all *Ethics, Law, and Aging Review* ,2000 Focus on Consumer-directed Care and Older Persons Marshall B. Kapp, 2000 Chapters address the effects of the changes within health and long term care delivery and financing as they evolve from a regulatory command and control paradigm to a combination of models in which the individual patient consumer is more empowered to make personal choices **Manual of Gerontologic Nursing** Charlotte Eliopoulos, 1999 A practical accessible reference now brought completely up to date This bestselling manual covers all problems related to gerontologic nursing care within the nursing diagnosis framework **Creating Restorative Justice**

Gregory D. Paul, Ian M. Borton, 2021-04-07 Discussion of the histories meanings and assumptions of restorative justice have enriched the development of its theory research and practices While some of this work has addressed the role of communication the treatment of communication within restorative justice remains rather under developed Communication plays a central role in processes of restoration and justice and a constitutive role in making restorative justice what it is In *Creating Restorative Justice A Communication Perspective of Justice Restoration and Community* Gregory D Paul and Ian M Borton argue that by centering communication in restorative justice as it occurs in various contexts from families to schools to communities we can simultaneously deepen our understanding enrich our practice and amplify our study of restoration and justice From a communication perspective restorative contexts both use and are created by the communication present Any outcomes from restorative processes are thus the product of the communication both within and between restorative practices participants As the world addresses the challenges presented by injustice inequality and insecurity it is incumbent we expand our understanding of restorative processes to account for the vital role of communication
