How to Write About the Holocaust Theodor Pelekanidis,2022-05-05 How to Write About the Holocaust is a contribution to ongoing debates in historiography and Holocaust studies More specifically it combines the theoretical framework that has developed in historiography in the last half a century with the demands of Holocaust representation The first part of the book analyzes the newest trends in theory of history focusing especially on postmodernism starting from the works of the American historian and theorist Hayden White and tracing the genealogy of the postmodern influence in history both from an epistemological and from a political perspective The second part continues by incorporating these theoretical developments into specific written examples on the Holocaust By analyzing major works about it including Saul Friedländer's and Dan Stone's histories of the Holocaust the book attempts to answer questions like what is the most appropriate way to write about the Holocaust and what can theory teach us about the practice of history To conclude the volume explores the connection between history and literature and asks if the distinction between fact and fiction has become outdated *An Introduction to Holocaust Studies* Michael Bernard-Donals,2016-09-13 This single volume traces three approaches to the study of the Holocaust through notions of history theories of memory and a focus on art and representation It introduces students to the different ways we have come to understand the Holocaust gives them an opportunity to ask questions about

those conclusions and examines how this event can be understood once all the survivors are gone In addition the book looks at the different disciplines history sociology religious studies and literary interpretation among others through which studies of the Holocaust take place Täter, Opfer, Folgen Heiner Lichtenstein, Otto R.
