## **Problem Of The Passions Feminism Psychoanalysis And Social Theory:**

The Problem of the Passions Cynthia Burack, 1994 Throughout the ages women have been represented as warm nurturing caregivers with an intrinsically enhanced capacity for attachment and compassion Feminists however are considered full of rage and devoid of the feelings that are natural to women How then have feminists dealt with this dualism and more specifically with the disagreeable passions What has too often been missing from discussions of women's psychology is an account of women as ambivalent both empathic and enraged loving and hating In *The Problem of the Passions* Cynthia Burack fills this void illustrating how the selective appropriation and interpretation of early psychoanalytic ideas by feminists has deemphasized or denied the disagreeable passions of rage and hatred in women and women's relations Examining the work of such feminist theorists as Carol Gilligan Nancy Chodorow Jessica Benjamin and Dorothy Dinnerstein in a new light Burack argues that feminist social theory can be repaired through the incorporation of the pioneering psychoanalytic work of Melanie Klein Of central interest to feminists psychoanalysts political scientists and social theorists *The Problem of the Passions* is essential reading for anyone concerned with feminism and questions of identity in social thought

Power and the Self Jeannette Marie Mageo, 2002-01-24 *Power and the Self* first published in 2002 deals with an important but neglected topic the ways in which power is experienced by individuals both as agents and as objects of the exercise of power Each contributor presents a series of case studies drawn from a variety of cultural contexts including the analysis of the appeal of Japanese superhero toys for American children the conditions that lead to dehumanising treatment of patients in an American nursing home the experiences of a Turkish immigrant woman in the Netherlands a contribution relating theories about the capacity to commit genocidal violence to everyday forms of violence and other cases from New Guinea and Samoa The introduction provides a readable historical review and synthesis of the theoretical ideas that provide the context for the work presented in the book

*Tough Love* Cynthia Burack, 2014-02-01 Exposes how ex gay and postabortion ministries operate on a shared system of thought and analyzes their social implications A staple of the culture wars the struggle between Christian conservatives and progressives over sexuality and reproductive rights continues Focusing on ex gay ministries geared to helping same sex attracted people resist their sexuality and postabortion ministries dedicated to leading women who have had an abortion to repent that decision Cynthia Burack argues that both are motivated and characterized by a strain of compassion that is particular to Christian conservatism rather than a bias and hatred toward sexual minorities and sexually active women This compassion reproduces the sexual ideology of the Christian right and absolves Christian conservatives from responsibility for stigma and other forms of harm to postabortive and same sex attracted people Using the democratic theory of Hannah Arendt the popular fiction of Ayn Rand and the psychoanalytic thought of Melanie Klein Burack studies the social and political effects of Christian conservative compassion

**Freudian Analysts/Feminist Issues** Judith M. Hughes, 1999-01-01 In this book Judith M Hughes makes a highly original case for conceptualizing gender identity as

potentially multiple She does so by situating her argument within the history of psychoanalysis Hughes traces a series of conceptual lineages each descending from Freud In the study Helene Deutsch Karen Horney and Melanie Klein occupy prominent places So too do Erik H Erikson and Robert J Stoller Among contemporary theorists Carol Gilligan and Nancy Chodorow are included in Hughes s roster In each lineage Hughes discerns an evolutionary narrative Deutsch tells a story of retrogression Erikson names his epigenesis and Gilligan continues in that vein Horney s discussion recalls sexual selection Stoller s and Chodorow s theorizing brings artificial selection to mind and finally in Klein s work Hughes sees a story of natural selection and adds to it her own notion of multiple gender identities Healing Identities Cynthia

Burack,2018-08-06 Group identifications famously pose the problem of destructive rhetoric and action against others Cynthia Burack brings together the theory work of women of color and the tools of psychoanalysis to examine the effects of group collaborations for social justice and progressive politics This juxtaposition illuminates some assumptions about race and equality encoded in psychoanalysis Burack s discursive analysis suggests the positive identity affirming aspects of group relational life for African American women One analytic response to groups emphasizes the dangers of these identifications and exhorts people to abandon or transcend them for their own good and for the good of others who may be harmed by group based forms of cultural or material violence Another response understands that people feel a need for group identifications and asks how they may be made more resistant to malignant group based discourse and action What can black feminist thought teach scholars and democratic citizens about groups Burack shows how the rhetoric of black feminism models reparative rather than destructive forms of group dialogue and action Although it may be impossible to eliminate group identifications that provide much of the impetus for bias and violence she argues we can encourage more progressive forms of leadership solidarity and coalition politics Psychoanalytic Versions of the Human Condition Paul Marcus,Alan

Rosenberg,1998-08 What is psychoanalysis Whereas there was once a time when proponents of mainstream psychoanalysis could point to the preeminence of Freud s drive theory and the version of the human condition associated with it man as seeking pleasure in an erotically tinged universe contemporary psychoanalysis is a fractured and contentious discipline in which competing theories share little more than the basic concepts of unconscious mental processes repression and transference Taking the complexities ambiguities and contradictions engendered by psychoanalysis over the past several decades as an encouraging point of departure rather than as evidence of the dissolution of the psychoanalytic tradition Psychoanalytic Versions of the Human Condition makes explicit how within each major theory a particular story about the nature of the world and what it means to be human decisively shapes how the clinician conceptualizes individual psychopathology and approaches treatment A chorus of voices that both challenges and reaffirms the theory and practice of psychoanalysis Psychoanalytic Versions of the Human Condition asks urgent questions about the politics of psychoanalytic knowledge and about how the profession is situated and operates in our contemporary culture Whether Freudian Jungian

Kleinian Kohutian Lacanian or hybrid the clinician will find this book a useful guide to understanding how each theory's philosophy of life infuses clinical work

*Das Tabu des Begehrens* Anna Koellreuter, 2000 Angeregt durch die Beobachtung spezifischer Stagnationen und Irritationen in der Analyse zwischen Analytikerin und Analysandin fragt die Autorin was sich triebmässig in der Analyse zwischen zwei Frauen abspielt und warum das Triebhafte abgewehrt werden muss Von dieser praktischen Fragestellung ausgehend setzt sich die Autorin theoretisch mit der Bedeutung der Triebe und der Triebverdrängung für die weibliche Subjektconstitution sowie mit der Verflüchtigung der Triebtheorie aus der Psychoanalyse und den daraus resultierenden Folgen für den feministisch psychoanalytischen Weiblichkeitsdiskurs auseinander Vor dem Hintergrund der Aussagen von Laplanche insbesondere zur Urverfälschung und ihrer Bedeutung für die Fantasiebildung und für die Subjektconstitution spannt die Autorin den Bogen zur klinischen Praxis Die prädisponierte Mutter wird als sexuelle Person ebenso plastisch dargestellt wie die spezifischen Rituale in der analytischen Situation zwischen zwei Frauen und die sich daraus ergebenden therapeutischen Fallen

Feminism & Psychotherapy I Bruna Seu, M Colleen Heenan, 1998-05-21 Feminism and Psychotherapy deconstructs the theory and practice of feminist therapy in contemporary society and challenges the view that one model of therapy or one model of feminism can be elevated above all others

**Resonances of Slavery in Race/Gender Relations** Jane Flax, 2010-11-15 In a provocative and insightful exposition Jane Flax posits that Americans have never properly mourned slavery and its lingering effects on American subjects and politics Using an interdisciplinary approach the book shows that a reciprocal relationship exists between unconscious processes and race gender domination and that unless we attend to these unconscious processes no

adequate remedy for the malignant consequences of our current race gender practices and relations can be devised Wide ranging Flax supports her arguments using a variety of sources including psychoanalytic theory feminist theory political theory Michel Foucault s writings Obama s books and speeches critical race theory data on race gender disparities and analysis of contemporary films     *Blacks and Jews on the Couch* Alan Helmreich,Paul Marcus,1998-10-30 Black Jewish relations at the symbolic level are in shambles writes Cornel West One has only to recall the 1991 Crown Heights tragedy and its aftermath to recognize to what extent Black Jewish relations have deteriorated The emergence of frequently anti Semitic black demagogues like Louis Farrakhan and Leonard Jeffries and the Jewish community s turn to neo conservatism have only made matters worse Mistrust ambivalence and other negative feelings characterize much of Black Jewish relations Unlike most books on this topic which are written from a sociocultural historical and literary perspective this anthology looks at the psychological motives beliefs and desires that impair relations between the two groups For example unresolved vulnerabilities in respective communities from the Holocaust and slavery remain driving and complex passions that still disrupt Black Jewish relations Psychoanalysis is a powerful conceptual tool to untangle these issues and other aspects of the larger societal race relations problem     The Artistry of Anger Linda M.
