Metaverse is already emerging around us and doesn't require a headset. Still, there are many breakthroughs required to fully realize the Metaverse, and he describes each in approachable but expert detail. Ball also lays out how governmental policy, the philosophy of Big Tech leaders, artificial general intelligence, economics, and human rights will shape the development of the Metaverse. Famous for his ability to bring clarity to complex and misunderstood topics, Ball demonstrates that the race to build the Metaverse, also known as the spatial or immersive internet, is only accelerating. The Metaverse will endure as an indispensable guide for enthusiasts, tech aficionados, and anyone curious about the profound transformations underway in our increasingly interconnected world.

The 21st Century in 100 Games Aditya Deshbandhu, 2024-06-20. The 21st Century in 100 Games is an interactive public history of the contemporary world. It creates a ludological retelling of the 21st century through 100 games that were announced, launched, and played from the turn of the century. The book analyzes them and then uses the games as a means of entry to examine both key events in the 21st century and the evolution of the gaming industry. Adopting a tri-pronged perspective, the reviewer, the academic, and an industry observer, it studies games as ludonarratological artefacts and resituates games in a societal context by examining how they affect and are engaged with by players, reviewers, the gaming community, and the larger gaming industry. This book will be a must-read for readers interested in video games, new media, digital culture, culture studies, and history.

Fashion Communication in the Digital Age Nadzeya Sabatini, Teresa Sádaba, Alessandro Tosi, Veronica Neri, Lorenzo Cantoni, 2023-08-08. This is an open access book. FACTUM Conference proceedings are the output of one of the few academic events of its nature happening globally, researching fashion communication from different angles and perspectives. It includes contributions from scholars studying communication and marketing, management, digital transformation, and cultural heritage among other disciplines. This book presents papers from the third bi-annual Conference, which aims to become the major reference point in the field. These proceedings seek to promote theoretical and empirical interdisciplinary work on how various communication practices impact both the fashion industry and societal fashion-related practices and values. With these proceedings, several objectives are aimed to be achieved: namely, to establish and consolidate an international and interdisciplinary network of scholars in the field of fashion communication; to share methodological approaches to expand the dialogue between communications studies and fashion-related disciplines; to encourage junior researchers to pursue their scientific interests in this field. Finally, the book can be used by professionals in the field of fashion communication and marketing who are eager to access sound research in a field that is developing very fast due to its digital transformation.
