Radiation Defect Engineering Selected Topics In Electronics And Systems:

Radiation Defect Engineering Vitaliĭ Vasil'evich Kozlovskii, Vera Abrosimova, 2005 Design of High-speed Communication Circuits Ramesh Harjani, 2006 MOS technology has rapidly become the de facto standard for mixed signal integrated circuit design due to the high levels of integration possible as device geometries shrink to nanometer scales The reduction in feature size means that the number of transistor and clock speeds have increased significantly In fact current day microprocessors contain hundreds of millions of transistors operating at multiple gigahertz Furthermore this reduction in feature size also has a significant impact on mixed signal circuits Due to the higher levels of integration the majority of ASICs possesses some analog components It has now become nearly mandatory to integrate both analog and digital circuits on the same substrate due to cost and power constraints This book presents some of the newer problems and opportunities offered by the small device geometries and the high levels of integration that is now possible The aim of this book is to summarize some of the most critical aspects of high speed analog RF communications circuits Attention is focused on the impact of scaling substrate noise data converters RF and wireless communication circuits and wireline communication circuits including high speed I O *SiC Materials and Devices* Michael Shur, Sergey L. Rumyantsev, Mikhail Efimovich Levinshteĭn, 2006 After many years of research and development silicon carbide has emerged as one of the most important wide band gap semiconductors The first commercial SiC devices power switching Schottky diodes and high temperature MESFETs are now on the market This two volume book gives a comprehensive up to date review of silicon carbide materials properties and devices With contributions by recognized leaders in SiC technology and materials and device research SiC Materials and Devices is essential reading for technologists scientists and engineers who are working on silicon carbide or other wide band gap materials and devices The volumes can also be used as supplementary textbooks for graduate courses on silicon carbide and wide band gap semiconductor technology **Advanced Semiconductor Devices** Michael S. Shur, Paul A. Maki, James Kolodzey, 2007 This volume covers five emerging areas of advanced device technology wide band gap devices terahertz and millimeter waves nanometer silicon and silicon germanium devices nanoelectronics and ballistic devices and the characterization of advanced photonic and electronic devices The papers by leading researchers in high speed and advanced electronic and photonic technology presented many firsts and breakthrough results as has become a tradition with the Lester Eastman Conference and will allow readers to obtain up to date information about emerging trends and future directions of these technologies Key papers in each section present snap shot and mini reviews of state of the art and hot off the press results making the book required reading for engineers scientists and students working on advanced and high speed device technology *Transformational Science And Technology For The Current And Future Force (With Cd-rom) - Proceedings Of The 24th Us Army Science Conference* A M Rajendran, J A Parmentola, W Bryzik, B J Walker, J W Mccauley, J Reifman, N M Nasrabadi, 2006-11-08 This book provides the reader with a unique opportunity to understand the

basic and applied research and technology areas that support applications to enable Transformational capabilities for US Soldiers The research papers are in line with the theme of the 24th Army Science Conference Transformational Science and Technology for the Current and Future Force emphasizing the critical role of Science and Technology in addressing the significant challenges posed by Global War On Terrorism while simultaneously developing Transformational capabilities for the Future Force

High-speed Optical Transceivers: Integrated Circuits Designs And Optical Devices Techniques Yuyu Liu, Huazhong Yang, 2006-03-09 This book explores the unique advantages and large inherent transmission capacity of optical fiber communication systems The long term and high risk research challenges of optical transceivers are analyzed with a view to sustaining the seemingly insatiable demand for bandwidth A broad coverage of topics relating to the design of high speed optical devices and integrated circuits oriented to low power low cost and small area is discussed Written by specialists with many years of research and engineering experience in the field of optical fiber communication this book is essential for an audience dedicated to the development of integrated electronic systems for optical communication applications It can also be used as a supplementary text for graduate courses on optical transceiver IC design

Terahertz Science and Technology for Military and Security Applications Dwight L. Woolard, 2007 The inherent advantages and potential payoffs of the terahertz THz regime for military and security applications serve as an important driver for interest in new THz related science and technology In particular the very rapid growth in more recent years is arguably most closely linked to the potential payoffs of THz sensing and imaging THz S Fingerprinting Insulins in the Spectral Region from Mid IR to THz R Song et al Ambient Air Used as the Nonlinear Media for THz Wave Generation X Xie et al Time Domain Terahertz Imaging of Threats in Luggage and Personnel D Zimdars et al Designed Self Organization for Molecular Optoelectronic Sensors M Norton An Optically Triggered I RTD Hybrid THz Oscillator Design D Woolard et al New Technique to Suppress Sidelobe Clutter in Perimeter Security Systems G W Webb et al Remote Identification of Foreign Subjects A Sokolnikov and other papers Readership University researchers in electrical engineering physics chemistry biology students and small business efforts in high frequency electronics and sensors as a supplement for graduate courses
