for future teaching and scholarship on speech communication what and whose purposes within and beyond the field do definitions of speech communication serve how does increasing interest in cultural diversity affect research and teaching in speech communication and what relationships exist among communication power and order and how should these issues individually and in tandem be reflected in scholarship and teaching A group of chapters is devoted to exploring each of these questions In recognising what is shared by scholars and teachers in diverse areas and in calling attention to the four issues that will become increasingly prominent in the cultural landscape the chapters spotlight themes and foci germane to the field's health and identity in the years ahead
