## **Satisficing And Maximizing Moral Theorists On Practical Reason:**

*Satisficing and Maximizing* Michael Byron, 2004-07-19 How do we think about what we plan to do One dominant answer is that we select the best possible option available However a growing number of philosophers would offer a different answer since we are not equipped to maximize we often choose the next best alternative one that is no more than satisfactory This strategy choice is called satisficing a term coined by the economist Herb Simon This new collection of essays explores both these accounts of practical reason *Moral, Wissenschaft und Wahrheit* Julian Nida-Rümelin, Jan-Christoph

Heilingner, 2016-01-15 Normen beeinflussen die Interaktion von Menschen miteinander und den Umgang von Menschen mit ihrer Umwelt Was aber ist Normativität Muss sie unabhängig von Menschen sein um objektiv sein zu können Oder entsteht sie erst in Abhängigkeit von Menschen die sie formulieren oder nach ihr handeln und ist deshalb nicht objektiv Oder ist dieser Gegensatz grundsätzlich verfehlt und es bedarf eines anderen Ansatzes um die Rolle von Normativität in der lebensweltlichen Verständigungspraxis angemessen zu bestimmen Die Beiträge in vorliegendem Band widmen sich diesem Problemkomplex unter besonderer Berücksichtigung der Bereiche Moral und Wissenschaft **Oxford Studies in Normative Ethics, Vol 7**

Mark Timmons, 2017 OSNE is an annual forum for new work in normative ethical theory Leading philosophers advance our understanding of a wide range of moral issues and positions from analysis of competing normative theories to questions of how we should act and live well OSNE will be an essential resource for scholars and students working in moral philosophy

American Philosophical Association, 2004 List of members in v 1 **Computing and Philosophy in Asia** Soraj Hongladarom, 2007 This volume is a collection of selected papers presented at the Second Asia Pacific Computing and Philosophy Conference which was held in Bangkok Thailand in January 2005 The conference was organized by the Center for Ethics of Science and Technology Chulalongkorn University on behalf of the International Association of Computing and Philosophy [www.ia-cap.org](http://www.ia-cap.org) Computing have had a long relationship with philosophy starting from the problem of how symbols being manipulated in computing bear a relation to the outside world to those of artificial intelligence robotics computer simulation and so on Moreover as computer technologies have become thoroughly pervasive in today's environment there are also issues concerning social and ethical impacts brought about by them The papers in the volume represent a wide variety of concerns and various dimensions within which computing and philosophy are related Furthermore it also represents some of the first attempts to highlight cultural dimensions of computing and philosophy which became prominent when the conference was held for the first time within the milieu of an Asian culture The First Asia Pacific

Computing and Philosophy was held in Canberra Australia Hence many of the papers in the volume address this added dimension Apart from the usual problems of how computers and human lives are interconnected the papers here also discuss how computers are related to human lives as lived in a specific culture Thus the book breaks a new ground and should be of interest to a wide range of scholars and students who are interested not only on computing and philosophy generally construed but also on this exciting new dimension of how the cultures of Asia the West and others bear upon the traditional issues in computing and philosophy and on how this dimension raises some new concerns and agenda Among the topics discussed in this volume are political online forums in Saudi Arabia e democracy and structural transformation of public sphere the Buddhist informational person a glance into the lives of computerized generation in Thailand technology and journalism in the market local approaches and global potential of information ethics computer enhanced good life computer teaching ethics and many others **The Philosopher's Index** ,2007 Vols for 1969 include a section of abstracts
