Satire Theory Practice:

Generating Creative Language - Theories, Practice and Evaluation Mika Hämmäläinen, 2020-10-08 This thesis presents approaches to computationally creative natural language generation focusing on theoretical foundations practical solutions and evaluation I defend that a theoretical definition is crucial for computational creativity and that the practical solution must closely follow the theoretical definition Finally evaluation must be based on the underlying theory and what was actually modelled in the practical solution A theoretical void in the existing theoretical work on computational creativity is identified The existing theories do not explicitly take into account the communicative nature of natural language Therefore a new theoretical framework is elaborated that identifies how computational creativity can take place in a setting that has a clear communicative goal This introduces a communicative creative trade off that sets limits to creativity in such a communicative context My framework divides creativity in three categories message creativity contextual creativity and communicative creativity Any computationally creative NLG approach not taking communicativity into account is called mere surface generation I propose a novel master apprentice approach for creative language generation The approach consists of a genetic algorithm the fitness functions of which correspond to different parameters defined as important for the creative task in question from a theoretical perspective The output of the genetic algorithm together with possible human authored data are used to train the apprentice which is a sequence to sequence neural network model The role of the apprentice in the system is to approximate creative autonomy Evaluation is approached from three different perspectives in this work ad hoc and abstract theory based and abstract and theory based and concrete The first perspective is the most common one in the current literature and its shortcomings are demonstrated and discussed This starts a gradual shift towards more meaningful evaluation by first using proper theories to define the task being modelled and finally reducing the room for subjective interpretation by suggesting the use of concrete evaluation questions Satire, Humor and the Construction of Identities

Massih Zekavat, 2017-06-15 Satire Humor and the Construction of Identities conveys how satire can contribute to the construction of social subjects identities It attempts to provide a theoretical ground for a novel understanding of the relationship between satire and identity by finding their common denominator namely opposition in order to explain the mechanism through which satire can form identities After establishing the role of opposition in satire and identity construction through a detailed analysis of various theories it will be argued that satire can contribute to the construction of racial ethnic national religious and gender identities Several examples from British Persian ancient Roman literary traditions and different epochs illustrate the theoretical discussions The prevalence of satire and the challenges that identity has encountered in our contemporary world guarantee the significance of this study and its socio political implications

Wahlkampf mit Humor und Komik Andreas Dörner, Ludgera Vogt, 2017-05-29 Waren politische Akteure für her primär das Objekt kritischer Spitzen in Satire und Komik so sind sie gegenwärtig zunehmend als aktive Subjekte daran beteiligt In den

USA ist das schon länger der Fall und der Präsidentschaftswahlkampf 2016 zeigte dass satirische Interviews dort zum festen Bestandteil der kommunikativen Infrastruktur geworden sind In Deutschland agiert man noch etwas zurückhaltender wobei der Bundestagswahlkampf 2013 einen ersten Höhepunkt der Beteiligung bildete Politische Akteure suchen vor allem die Chance in komischer Modulation das positive Image eines humorvollen Menschen aufzubauen der unterhaltsam ist und ber sich selbst lachen kann Gleichzeitig setzen sie sich dabei jedoch einem hohen Risiko aus Sie treten in Interaktion mit erfahrenen und oft kritisch ausgerichteten Medienakteuren deren Komikgebrauch einer eigenen Unterhaltungslogik folgt Dies birgt für Politiker die Gefahr von Unberechenbarkeit im Fall ungeschickten Agierens sogar die Gefahr albern lächerlich und unseriös zu wirken Der Band präsentiert die Ergebnisse eines empirischen Forschungsprojektes das den Einsatz von Komik durch politische und mediale Akteure vor der Kamera thematisiert Ein Schwerpunkt der Untersuchung gilt auch der Aneignung solcher Präsentationen durch die Fernsehzuschauer Haben die Auftritte tatsächlich einen Einfluss auf die Wähler
