## **Secularization Of The Academy:**

The Secularization of the Academy George M. Marsden, 1992 A century ago Christianity was a leading force in American higher education today it is marginalized or simply excluded This study examines the reasons behind the transformation

*American Evangelicalism* Darren Dochuk, Thomas S. Kidd, Kurt W. Peterson, 2014-10-15 No living scholar has shaped the study of American religious history more profoundly than George M Marsden His work spans U S intellectual cultural and religious history from the seventeenth through the twenty first centuries This collection of essays uses the career of George M Marsden and the remarkable breadth of his scholarship to measure current trends in the historical study of American evangelical Protestantism and to encourage fresh scholarly investigation of this faith tradition as it has developed between the eighteenth century and the present Moving through five sections each centered around one of Marsden s major books and the time period it represents the volume explores different methodologies and approaches to the history of evangelicalism and American religion Besides assessing Marsden s illustrious works on their own terms this collection s contributors isolate several key themes as deserving of fresh rigorous and extensive examination Through their close investigation of these particular themes they expand the range of characters and communities issues and ideas and contingencies that can and should be accounted for in our historical texts Marsden s timeless scholarship thus serves as a launchpad for new directions in our rendering of the American religious past

**Catholicism and Secularization in America** David L. Schindler, 1990 Is the American Catholic Church becoming overly secularized How should the Church respond to modern society *Religion Index Two*, 1994 *Twenty-first Century Christian Higher Education in Multi-cultural Asian Societies*, 2000 *Values, Religions and Education in Changing Societies* Karin Sporre, Jan Mannberg, 2010-09-24 Education is a societal matter and takes place in relation to societal changes Today in many countries it has to grapple with diversity and differences brought about by migration and changes in gender relations Questions of values human rights and the role of religions are raised In this book scholars from Sweden Norway Germany Great Britain Canada Namibia and South Africa discuss the issues above Similarities as well as differences are highlighted The varied contributors engage in a North South dialogue Among the questions addressed are Can the Scandinavian countries be understood as more religious than their up to date seemingly secularist reputation has led us to believe How do some European Muslim Christian and secular pupils understand the religious education they receive Could a global citizenship education with a gendered understanding as an integral part be accomplished Diversity and social justice what does it take to theoretically integrate these two crucial parameters in education in South Africa and in Sweden The role of religious and values education under changing circumstances is explored through the diverse contributions that also challenge the hegemony of a Western understanding of democracy among other values The purpose of this is to assess what could now constitute global educational common ground A Place for God Alfred Lindsay Skerpan, 1998 "A Place Somewhat

Apart" Philip Harrold, 2001      **The ^ADecline of the Secular University** C. John Sommerville, 2006-06-29 The American university has embraced a thorough secularism that makes it increasingly marginal in a society that is characterized by high levels of religious belief The very secularization that was supposed to be a liberating influence has resulted in the university's failure to provide leadership in political cultural social and even scientific arenas In *The Decline of the Secular University* C. John Sommerville explores several different ways in which the secular university fails in its mission through its trivialization of religion He notes how little attention is being given to defining the human so crucial in all aspects of professional education He alerts us to problems associated with the prevailing secular distinction between facts and values He reviews how the elimination of religion hampers the university from understanding our post Cold War world Sommerville then shows how a greater awareness of the intellectual resources of religion might stimulate more forthright attention to important matters like our loss of a sense of history how to problematize secularism the issue of judging religions the oddity of academic moralizing and the strangeness of science at the frontiers Finally he invites the reader to imagine a university where religion is not ruled out but rather welcomed as a legitimate voice among others Sommerville's bracing and provocative arguments are sure to provoke controversy and stimulate discussion both inside and outside the academy

**The Future of Religious Colleges** Paul John Dovere, 2002 Building on competent historical and analytical studies of the past decade the contributors consider the state of religious education generally explore the relationship between religious colleges and their sponsoring churches probe a number of successful educational models and examine the influence of public policy on religious colleges      **The Evangelical Historians** Maxie B Burch, 1996-06-28 This book explores the personal backgrounds historical methodologies and academic philosophies of George Marsden Nathan Hatch and Mark Noll It addresses the issues raised by the interaction of personal faith and scholarship and the subsequent effect this has upon the evangelical community at large and the academic mission of institutions that wish to maintain their Christian distinction The author shows how these scholars founded the Institute for the Study of American Evangelicals and she demonstrates the significance of their attempts to open evangelical historical scholarship to a wider audience Readers will get to know the personalities behind these evangelical scholars and will discover the uniqueness of Marsden Hatch and Noll as individuals as well as leaders This is the first book to approach faith and learning from the point of view of these three men Full of personal interviews and unpublished materials *The Evangelical Historians* will appeal to students and scholars of American Studies religion culture and sociology It will serve as a useful text for courses in the History of American Christianity Christianity and Culture Historiography Fundamentalism and Evangelicalism and 18th and 19th Century American Protestantism In addition members of the historical guild interested in religion in America and the role of Christianity will surely want a copy of this rare and thoughtful work Contents Preface A Historian's History Integrating Faith and Learning Transgressing Boundaries Historical Critique and Evangelical Response The Opening of the Evangelical Mind Conclusion Index      *The University Gets*

Hart, 1999 The first sustained history of the academic study of religion at American universities The University Gets Religion Religious Studies in American Higher Education is a timely book that explores the present day implications of religious studies Protestant past BOOK JACKET *The Next Religious Establishment* Eldon J. Eisenach, 2000 America cannot survive without a common faith History has taught us that our national identity and our political order require voluntary religious and civic organizations Following the social political and cultural upheavals of the 1960s Americans are now engaged in a struggle to determine the future of our nation's character and destiny So argues prominent political theorist Eldon J Eisenach in this brilliant and controversial new book Contentious debates over multiculturalism church state relations and immigration illustrate America's current identity crisis Creating a common vision for America is no easy task but Eisenach describes how the moral and spiritual foundations of a new coherent American identity and faith are already emerging As in the past the next religious establishment's primary expression will be a political and cultural order that mediates and integrates personal ethnic religious and civic identities The Next Religious Establishment alerts readers to the changing landscape of America's identity and invites us to participate in its redefinition This book will profoundly alter the way political theorists intellectual historians and theologians conceptualize America's past present and future

Christian Faith and Scholarship: An Exploration of Contemporary Developments Todd C. Ream, Perry Lynn Glanzer, 2007-09-17 In the twenty first century religious faith has reemerged from the margins of modernism and moved back to the center of contemporary scholarly conversations When Jacques Derrida died Stanley Fish recently wrote I was called by a reporter who wanted to know what would succeed high theory and the triumvirate of race gender and class as the center of intellectual energy in the academy I answered like a shot religion A group of evaluators of the Lilly Endowment's Initiative on Religion and Higher Education recently agreed There is today more discussion about the role of religion in the academy than at any time in the past 40 years and more commitment to the project of Christian higher education than there was just ten years ago In recognition of these developments this particular monograph offers an overview of the various ways conversations about religion and religiously informed scholarship are increasing in the academy Although a growing number of faith traditions are finding their place in this conversation the Christian tradition in its various forms is still the dominant voice This monograph addresses the history of secularization in American higher education and scholarship the historical and resistance by dominant religious traditions to that secularization the contemporary ways that individual scholars networks and institutions approach the question of religious faith and scholarship the concerns such a question raises for academic freedom and the relationship between religious faith and scholarship Religion, Scholarship, and Higher Education Andrea Sterk, 2001 Religion Scholarship and Higher Education explores foundational issues surrounding the interaction of religion and the academy in the twenty first century Featuring the work of eighteen scholars from diverse institutional disciplinary and religious backgrounds this outstanding collection of essays issues from a three year Lilly Seminar on Religion and Higher
