## **Securities Environmental Cases And Mateirals:**

**Environmental Security and Gender** Nicole Detraz, 2014-08-21 Over the past 20 years scholars policymakers and the media have increasingly recognized the links between both traditional and non traditional security issues and the changing condition of the global environment Concepts such as environmental security and resource conflict have been used to hint at these significant linkages While there has been a good deal of scholarly work conducted that seeks to identify the ways that actors link these concepts there has been little examination of the intersection between approaches to environmental security and gender This book explores this intersection to provide an insight into the gendered nature of both global environmental politics and security studies It examines how the issues of security and the environment are linked to theory and practice and the extent to which gender informs these discussions By adopting a feminist environmental security discourse this book provides crucial redefinitions of key concepts and offers new insights into the ways we understand security environment connections Case studies evaluate if and how environment and security discourses are being used to understand a range of environmental issues and how a feminist environmental security discourse contributes to our understanding of security environment connections This multidisciplinary volume draws on literature from the environmental sciences security studies and sociology to highlight the complex human insecurities that often accompany environmental change As conceptualizations of security continue to shift and broaden to include environmental issues and concerns it is imperative that gender informs the debate

**Securities** Elizabeth Glass Geltman, 1994 *Foreign Investment, Human Rights and the Environment* Shyami Fernando Puvimanasinghe, 2007 Events like the Bhopal disaster the sale of products harmful to human health and safety and child labour especially in resource scarce settings raise fundamental issues of human dignity and ecological integrity From a legal perspective and in the context of Foreign Direct Investment by Transnational Corporations in developing countries they highlight the lacuna of a holistic international legal framework and its implementation This book embodies a critique of the complex web of public international law principles on economics human rights and the environment and their convergence or lack thereof related regional South Asian and domestic Sri Lankan legal arrangements interventions of states and non state actors towards just equitable and sustainable development It is a quest for a middle path in the multidisciplinary landscape of international law development and North South power dynamics globalization of free trade and investment and of social and environmental interests and salient aspects of the philosophical socio economic and legal fabric of South Asia viewed against the evolving controversial and elastic sphere of international relations and law where consensus has hitherto been an elusive dream

**Environment and Security** M. Lowi, B. Shaw, 2000-05-16 This book is based on a conference addressing the relationship between the environment and security in the post Cold War world It brings together scholars and practitioners from a variety of different disciplines and perspectives in an effort to both explore the complexities of the

relationship between environmental variables and security conditions and re focus the debate within the environmental community The book combines analytical frameworks and case study material with proposals for addressing environmental challenges and enhancing the security and welfare of peoples states and regions Bimonthly Review of Law Books ,1993

Climate Change, Disaster Risks, and Human Security Juan M. Pulhin,Makoto Inoue,Rajib Shaw,2021-03-18 This book explores how climate change and disaster risks threaten human security in Asia Climate change and disaster risks have emerged as major human security challenges in the twenty first century and are an imminent threat multiplier with the potential to harm the vital core of human life and curtail people s freedom and ability to live with dignity Climate change and disaster risks undermine the security of individuals communities nations and the world considering the increasing trend in the frequency and magnitude of hydro meteorological disasters and the projections on their future adverse impacts Despite recent advances in the literature there is still a major gap in understanding the relationship and linkages between climate change disaster risks and human security particularly as gleaned from the Asian experience Asia is the world s most vulnerable region in terms of the quantity and magnitude of impacts from various forms of disaster At the same time it has developed a number of innovative responses to address those risks offering a wealth of experience Exploring and capitalizing on the Asian perspective this book provides valuable resource material for students academics researchers policymakers and development practitioners working in these areas **The Cumulative Book Index** ,1996 A world list of books in the English language *Strategies for Hotel Investment* Joseph Philip Forte,K. Fairfax,Darla Guenzler,2001 In the wake of the Exxon Valdez oil spill a conservation trust helped stabilize and regenerate the damaged area When bird habitats along the Platte River were threatened by Grayrocks Dam a similar trust came to their rescue And if a family wants to protect

its land for future generations establishing a trust may be the best solution For more than a century bequests of land and funds for environmental protection have been common but in recent decades the trusts used to address conservation issues and resolve environmental disputes have diversified and grown significantly This book examines a variety of conservation organizations built on or close to trust principles some government creations some private some combinations of the two to explain how conservation trusts are created and how they work It explores strengths and weaknesses of the trust concept considers the widespread use of land trusts and presents case studies that both illustrate successes and give instructive examples of potential pitfalls Drawing on cases from Maine to Hawaii the authors examine the different kinds and configurations of trusts They consider government trusts that blend federal state and local agencies into a single entity or that derive funding from outside legislative and executive channels trusts established by government and private cooperation to share responsibility for jointly held and managed resources and trusts established by private organizations and families For each type they explain why each is created how it operates and whether it has been proven effective They also address the important issue of accountability and consider when a trust is not the answer to a problem As more Americans reject federal control of land in favor of local determination land trusts have become the most popular tool for the preservation of land habitats and species And as the sharing of authority among public private and diverse government partners becomes more prevalent sound guidelines for establishing effective trusts are critical This book shows how the trust template provides an invaluable approach for future conservation efforts and is a primer for anyone involved in environmental management
