Security In The Gulf:

The Dilemma of Security and Defense in the Gulf Region Khalid Al-Jaber,Dania Thafer,2019-11-30 For a variety of contributing factors the defense and security status of the Gulf region is facing a dilemma between the maintenance of regional security and the preservation of domestic security interests This dilemma stems from the perceived decline of U S influence and lingering consequences of the Arab Spring movements Divisions and armed conflicts both within the Gulf itself and the surrounding region are a result of this changing political order and the ascension of many of the Gulf states on the international scene These evolving dynamics will set in motion various defense and security consequences for the Gulf and the greater Middle East which are addressed in this edited volume With contributions from practitioners as well as academics this book will be a vital resource for both researchers and policymakers

Gulf Security in the Twenty-First Century David E. Long,Christian Koch,1998-08-27 The connection between regional instability and the preservation of global security is nowhere more sensitive than in the Gulf Events since the 1990 1991 Gulf War continue to confirm the fragile interaction among states in the region and their susceptibility to external forces Gulf Security in the Twenty First Century brings together some of the foremost area experts to explore the most pressing issues including military threats to the region obstacles to economic development and socioeconomic harmonization and challenges to political stability In particular the work examines Iran s often enigmatic foreign policy vis vis its Gulf neighbors Iraq s resurgent military threat choices and constraints confronting US Middle East policy and Europe s inability to identify and pursue a united policy to safeguard its economic interests in the area These topics are further illuminated with an analysis of Russia s historical attempt at balancing foreign policy objectives in the Gulf with its enduring interests in Central Asia The potentially explosive issues of religious radicalism and the challenges of democratic pluralism are discussed in an effort to ascertain the potential of political Islam to disturb or enhance regional security Similarly the problems inhibiting the settlement of territorial disputes in and around the Gulf are brought into focus to illustrate lingering historical tensions among neighboring states To round out the book s topical coverage several contributors shed light on the region s unfettered dependence on foreign labor growing demographic pressures associated social and economic transformations and challenges to responsive public policy

Arabian Gulf Security The Emirates Center for Strategic Studies and Research,2008-09-09 In recent years the Gulf region has witnessed a number of major regional international developments the most prominent of

which being the war in Iraq and the crisis surrounding the Iranian nuclear program These developments have contributed to regional instability and have undermined efforts to achieve a balance of power in the Gulf region Furthermore during this period local apprehensions pertaining to the national security of the Gulf Arab countries have emerged These comprise the demographic imbalance stemming from the vast migrant labor force in the GCC states and concerns regarding the inherent threats of the rapid development being witnessed by the region owing to its increased openness to the global economy Internal and external threats necessitate concerted efforts to reinforce regional Gulf security via the establishment of a regional security system involving all the countries of the region as well as the cooperation and contribution of other states and international organizations In formulating their new approach to security the GCC states must reinforce their ability to deter intervention in their affairs by large regional neighbors and extra regional actors The common crises and challenges threatening the security of the Gulf countries should be a catalyst for the formulation of a unified Gulf strategy which necessitates a greater role for the GCC in achieving regional stability and fortifying the national security of its states This book which consists of papers presented at the ECSSR s 12th Annual Conference of 5 7 March 2007 discusses both security threats and opportunities concerning the Gulf countries with special reference to the foreign military presence in the region and the instability stemming from Iraq and Iran It also investigates the need to establish a coherent and permanent defense system in the region Moreover it addresses internal security challenges facing the Gulf countries which have cross border repercussions such as organized crime and the demographic imbalance resulting from the flow of migrant labor to the region The book also discusses the challenges inherent to the processes of development international integration and increased openness to the global economy

US Policy Towards the Muslim World M. Saleem Kidwai, 2010-05-10 By all accounts the overall relationship between the US and the Muslim world is marked by confrontation at several levels In the aftermath of 9 11 a great deal needs to be done to build bridges between America and the Muslim world A broad and immediate shift in America s policies towards the Muslim world is necessary What is the appropriate paradigm for the war on terrorism How should the US now deal with authoritarian regimes considered its traditional allies in the Muslim world How should the US deal with civil society opposition parties and other Islamist groups often located within these friends and allies How can the US maintain a close alliance with Israel while still continuing positive relations with Muslim states and movements

US Policy Towards the Muslim World seeks to find answers to these and similar questions The volume is comprised of fourteen contributions from specialists in the field It is a serious attempt to address and analyze key factors affecting US interests and suggests measures for the US policy makers The main objective is to provide a policy framework that will enable the US to face the challenges posed and opportunities thrown open in the Muslim world

shipping energy security sustainable fisheries as well as national and regional security The book juxtaposes the growing strategic importance of the Gulf of Guinea against the rising insecurity in the maritime domain especially from piracy Ali points out key gaps in prevailing regional and international approaches to maritime security cooperation in the Gulf of Guinea and sets out several suggestions for combating piracy as well as other maritime security threats while effectively enhancing maritime security cooperation in the region *Oil and Security in the Arabian Gulf* Abdel Majid Farid, 2020-09-21

The issue of security in the Gulf has an importance which goes far beyond the regional location of the area It is enough to note that instability in the area may result in the interruption of oil supplies to the rest of the world This book first published in 1981 considers some of the challenges facing the region following recent developments such as the fall of the Shah and the proclamation of the Islamic Republic in Iran the Soviet presence in Afghanistan the formation of an American task force to intervene in the area the failure of the Camp David agreement and the Iran Iraq war *Maritime Security of the Arab Gulf States* Ashraf Mohammed Keshk, 2022-08-12 This book outlines the state of play in maritime security in the Gulf and provides a historical perspective to current issues while also surveying different mechanisms for Gulf maritime security both at the collective and individual state levels The book addresses a number of questions related to maritime security in the Gulf States such as what are the main threats facing maritime security Do the Arab Gulf States have the necessary naval capabilities to confront these maritime security threats What are the efforts that the Arab Gulf States have made in order to maintain their maritime security What are the regional frameworks through which the Arab Gulf States can address maritime security threats And what are the obstacles hindering the Arab Gulf States efforts to maintain maritime security This book would be a valuable read for Gulf Cooperation Council States the ministries of defense in the Arabian Gulf countries security institutions the Arabian Gulf countries military academies think tanks and universities in the six Gulf States Western think tanks concerned with the Arabian Gulf region and scholars specializing in Arabian Gulf countries Maritime Security Dele Joseph Ezeoba, 2021-01-26 The Gulf of Guinea maritime environment accounts for between 70 90 percent of the revenue of the states in the region In addition to its rich forestry fisheries reserves and massive mineral and hydrocarbon deposits it also houses the largest volumes of the region's oil and gas which are still its most valued natural resources Thus its economic importance has been of great regional and global interest at all times Invariably the economic prosperity or otherwise of the states in the region is intrinsically tied to the peace and security of the Gulf This primary and strategic position of the Gulf in the socio economic survival and development of the states in the region critically underscores the huge importance of its general security which in recent years and decades has been blighted by many security challenges Dele Ezeoba's *Maritime Security Imperatives for Economic Development in the Gulf of Guinea* extensively engages the dynamics and dialectics of security and economic development in the chosen maritime area and establishes theoretical and practical mechanisms that should be deployed in combating security threats in the maritime space and opening up the region to greater development It

offers enterprising vistas of intellectual designs in addressing critical issues of maritime security and economic prosperity
