Metaphysics and the Future of Theology William J. Meyer, 2010 William J Meyer engages in critical and illuminating conversation with major figures in contemporary philosophy and theology in order to explain why theology has been marginalized in modern culture and why modernity has had such difficulty integrating religion and public life Wrestling with notable philosophers like MacIntyre and Stout and theologians such as Gustafson Hauerwas Porter Milbank and Reinhold Niebuhr Meyer argues that theology must embrace modernity s formal commitments to public and democratic discourse while simultaneously challenging its substantive postmetaphysical outlook Drawing on the philosophical perspectives of Whitehead and Hartshorne and the theologies of Ogden and Gamwell he concludes that a process metaphysical theology offers the most promising path for theology to regain a vital public voice in the world of the twenty first century

Life in Christ Mark A. Garcia, 2008 In three wide ranging case studies Garcia explores how union with Christ functions in Calvin s thought Garcia explains the way Calvin understands the apostle Paul to connect good works to eternal life in the context of union with Christ He then turns his attention to the relationship of christology and pneumatology in sacramental union or communion with Christ The third study investigates the role of Christ the Spirit and the Eucharist in Calvin s critique of Osiander s views on justifying union with Christ

The Healing Power of Spirituality: Religion J. Harold Ellens, 2010 *The Destructive Power of Religion* J. Harold Ellens, 2004 This extensive series explores themes including the seeds of violence in Biblical interpretation human sacrifice in the Old Testament violent religious metaphors the violent messiah linguistic and psychoanalytic approaches to religious themes the

jihad in context and in the Qur'an fundamentalism and violence and the psychoreligious roots of violence *Missing the Mark* Mark E. Biddle, 2005 A lucid and engaging study of the biblical theology of sin taking into account views in theology philosophy and the social sciences and offering insights for contemporary culture and ministry The haunting question of Karl Menninger Whatever Happened to Sin is given full thick answer here Sin has been flattened trivialized reduced to crime and completely misconstrued among us With shrewdness and finesse Biddle shows the thickness of sin in the Bible and the way in which sin without reductionism pertains to the deepest human reality Biddle is one Mark that impressively does not miss Walter Brueggemann Columbia Theological Seminary Biddle addresses the essential nature of sin He examines the dominant Christian understanding of sin carefully rereads key biblical texts and reveals the lexical depth of meaning in the biblical tradition *Missing the Mark* examines the following aspects of the subject of sin key passages and terms in the Old and New Testaments that deal with sin its consequences its effect on the community reflection on the nature of sin including original sin in classical Christian theology the relationship of the biblical theology of sin to Western juridical practice as well as philosophy psychology and the social sciences the implications of the biblical theology of sin for the life of the church and Christian ministry The sin as crime metaphor with its emphases on the juridical the individual and willful rebellion and its interests in assignment of guilt and exaction of punishment addresses certain aspects of the problem of human existence Yet although dominant in the Western popular mind it does not fully reflect the biblical witness nor provide a sufficient basis for the church's ministry in addressing human wrongdoing and its consequences nor take account of the insights of contemporary theological movements philosophies and social sciences that do not confirm its validity as a thorough description of the problem of being human Consequently the conventional understanding of sin offers the church meager tools for ministry In response Mark Biddle reveals the biblical insights often overlooked in the dominant theological tradition tests these insights against those of contemporary theology philosophy and the social sciences to confirm their accuracy and currency as descriptions of significant aspects of the human condition and shows the value of these insights into sin for ministry to the wide range of human pain and sorrow Central of course to the difficulty in framing a biblical doctrine of sin is the incongruity between the semantic fields of terms for sin in the biblical languages and in Western languages In common English usage sin refers to transgression of divine law or to the human propensity for such transgression definitions that emphasize the act apart from its consequences or the tendency as a trait of human nature and that imply willful violation of a known standard Biblical terms and usage involve a much broader spectrum of ideas the act as a wrong regardless of intention the real effects of the act loosed on the world as an abiding condition unless and until remedied shortcomings resulting from ignorance or incapacity a communal phenomenon with communal consequences etc The dominant Christian understanding of sin sees it primarily as a soteriological problem that is it pertains chiefly to what are the conditions that make salvation necessary The Bible and common experience suggest however that sin is more than a blot on one's record

that as an organic continuum it influences the world including and surrounding the sinner in real and lasting ways Biddle explores the dynamics of sin as act condition and cause Its effects cannot be remedied merely by a transaction analogous to forgiving a debt Sin does damage that must as far as possible be repaired A biblical view of sin understands that sin s impact on the world reverberates throughout the sinner s environment across space and time In this sense sin becomes a cause and it creates a distorted environment that is the pre condition for other sin Careful comparison of the Bible s understanding of the complex phenomenon of human sin with reflection on common experience reveals that the Bible offers a corrective to Western Christian hyper individualism moral relativism and inadequate theological tools and rationale for ministry to the full range of wrong and wrongdoing Specifically the Bible speaks to a number of aspects of sin often largely ignored in Christian theology and ministerial praxis **The Philosopher's Index** ,2006 Vols for 1969 include a section of abstracts **The Catholic Periodical and Literature Index** ,2002
