education encounters distinct challenges in delivering personalized and practical assistance to students with disabilities  
Educators frequently require support to address the varied needs of these students resulting in learning and development  
gaps Moreover early identification and catering to these needs can take time and effort affecting students long term  
academic success There is an urgent need for innovative solutions that can bridge these gaps and improve the educational  
experiences of students with disabilities Transforming Special Education Through Artificial Intelligence offers a  
comprehensive exploration of how Artificial Intelligence AI can transform special education by providing personalized and  
individualized support for students with disabilities Through case studies and real life examples we demonstrate how AI can  
analyze data to tailor learning experiences and most importantly identify learning difficulties early This crucial aspect of AI

can significantly enhance communication among stakeholders and reassure them about the potential of AI in improving educational outcomes for students with disabilities
