begins and ends with the fact that American food by most of the world's standards is not very good This is a rather sad note

considering the land of plenty the first American settlers found and even sadder considering that with the vast knowledge of food we possess we have still managed to create things such as the TV dinner and Finger Lickin Good chicken Nevertheless America s eating habits the philosophy behind these habits and much of the food itself are deliciously fascinating The authors in a style that is rich tasty and ironic chronicle the history of American food and eating customs from the time of the earliest explorers to the present
