Carefully crafted developmental approach in which teachers begin by learning basic ideas and practicing simple instructional strategies. Once these are mastered, teachers move on to learn and teach advanced concepts and complex experiments. Students learn how to deliver inquiry-based instruction, create standards-based lesson plans, link instruction and assessment design, performance assessments, use a variety of teaching strategies, and integrate science across the curriculum.

Community Connections for Science Education Phyllis Katz, 2001. Science beyond the schoolhouse is the subject of this close-up look at informal science education in non-traditional settings including Boys Girls Clubs, 4-H, zoos, aquariums, and even public TV. More than a dozen writers draw on personal experience to tell why they became informal science educators and how they use the history and theory of traditional science education in their work. Among the book's features for informal science educators are a resource directory and a special section on program evaluation. *Minnesota Journal of Education*, 1959.
