Operations Research Proceedings 2008 Bernhard Fleischmann, Karl-Heinz Borgwardt, Robert Klein, Axel Tuma, 2009-08-04 The international conference Operations Research 2008 the annual meeting of the German Operations Research Society GOR was held at the University of Augsburg on September 3-5 2008 About 580 participants from more than 30 countries presented and listened to nearly 400 talks on a broad range of Operations Research The general subject Operations Research and Global Business stresses the important role of Operations Research in improving decisions in the increasingly complex business processes in a global environment The plenary speakers Morris A. Cohen Wharton School and Bernd Liepert Executive Board of KUKA Robotics addressed this subject Moreover one of the founders of Operations Research Saul Gass University of Maryland gave the opening speech on the early history of Operations Research This volume contains 93 papers presented at the conference selected by the program committee and the section chairs forming a representative sample of the various subjects dealt with at Operations Research 2008 The volume follows the structure of the conference with 12 sections grouped into six Fields of Applications and six Fields of Methods and Theory This structure in no way means a separation of theory and application which would be detrimental in Operations Research but displays the large spectrum of aspects in the focus of the papers Of course most papers present theory methods and applications together

Credit Derivatives Pricing Models Philipp J. Schönbucher, 2003-10-31 The credit derivatives market is booming and for the first time expanding into the banking sector which previously has had very little exposure to quantitative modeling This phenomenon has forced a large number of professionals to confront this issue for the first time Credit Derivatives Pricing Models provides an extremely comprehensive overview of the most current areas in credit risk modeling as applied to the pricing of credit derivatives As one of the first books to uniquely focus on pricing this title is also an excellent complement to other books on the application of credit derivatives Based on proven techniques that have been tested time and again this comprehensive resource provides readers with the knowledge and guidance to effectively use credit derivatives pricing models Filled with relevant examples that are applied to real world pricing problems Credit Derivatives Pricing Models paves a clear path for a better understanding of this complex issue Dr Philipp J. Schönbucher is a professor at the Swiss Federal Institute of Technology ETH Zurich and has degrees in mathematics from Oxford University and a PhD in economics from Bonn University He has taught various training courses organized by ICM and CIFT and lectured at risk conferences for practitioners on credit derivatives pricing credit risk modeling and implementation [Online-Datenbanken und ihre](#)
