

A woman in a red dress is shown from the waist up, holding an Oscar statuette. She is positioned in the center of the frame. The background is a vibrant red with numerous vertical light streaks and a subtle pattern of small white dots, resembling a starry night sky or a digital display. The overall lighting is warm and dramatic, with a focus on the woman and the statuette.

**Global Forecast 2014** Craig Cohen, Kathleen Hicks, Josiane Gabel, 2013-11-18 After a dozen years of war the 2008 financial crisis budgetary contraction inside government and growing political polarization U S security policy stands at a crossroads as America finds itself lacking a durable political consensus on the nation s role in the world In Global Forecast 2014 CSIS scholars answer the questions that will determine the future trajectory of American power in 2014 and beyond The report looks overseas at America s ability to sustain its rebalance to Asia and adapt to the changing order in the Middle East At the same time the authors examine America s ability to get its own house in order to develop a sustainable resource strategy for defense and to rebuild a national security consensus to meet the challenges the United States will face in the years ahead *Accelerating Democracy* John O. McGinnis, 2013 How to adapt democracy to the accelerating pace of technological change and why it s critical that we do Successful democracies throughout history from ancient Athens to Britain on the cusp of the industrial age have used the technology of their time to gather information for better governance Our challenge is no different today but it is more urgent because the accelerating pace of technological change creates potentially enormous dangers as well as benefits Accelerating Democracy shows how to adapt democracy to new information technologies that can enhance political decision making and enable us to navigate the social rapids ahead John O McGinnis demonstrates how these new technologies combine to address a problem as old as democracy itself how to help citizens better evaluate the consequences of their political choices As society became more complex in the nineteenth century social planning became a top down enterprise delegated to experts and bureaucrats Today technology increasingly permits information to bubble up from below and filter through more dispersed and competitive sources McGinnis explains how to use fast evolving information technologies to more effectively analyze past public policy bring unprecedented intensity of scrutiny to current policy proposals and more accurately predict the results of future policy But he argues that we can do so only if government keeps pace with technological change For instance it must revive federalism to permit different jurisdictions to test different policies so that their results can be evaluated and it must legalize information markets to permit people to bet on what the consequences of a policy will be even before that policy is implemented Accelerating Democracy reveals how we can achieve a democracy that is informed by expertise and social scientific knowledge while shedding the arrogance and insularity of a technocracy **Lead with We** Simon Mainwaring, 2021-11-09 WALL STREET JOURNAL BESTSELLER 2022 NATIONAL INDIE EXCELLENCE AWARDS FINALIST BUSINESS GENERAL 2022 AXIOM BUSINESS BOOK AWARD GOLD MEDALIST LEADERSHIP Critically important reading as our economy struggles to recover the pandemic s deleterious economic impact that is currently compounded by supply chain issues and the beginnings of an inflationary spiral The Midwest Book Review Provides concrete steps leaders and employees can take to thrive in today s marketplace where taking a stand on something important to your customers can become a competitive differentiator Forbes

Discover an urgent prescription for a new business paradigm one that better serves humanity and the planet The global coronavirus pandemic has thrown into stark relief how business as usual is no longer serving us The economic business and environmental models of the past do not reflect our current realities And for our economy for us to survive we need nothing less than a seismic shift in the way we do business Enter Simon Mainwaring New York Times bestselling author and founder and CEO of We First A decade ago he showed how business leaders and consumers could use social media to build a better world in We First Now after decades of research and field experience at the vanguard of the world s most successful brand revolutions he provides in Lead With We a blueprint for doing business better in today s challenged world By leading with we putting the collective above the individual holding the sum above the parts and emphasizing the importance of the role that everyone plays you can not only help solve the escalating challenges of today but also unlock extraordinary growth for your business and abundance on our planet Timely and compelling this book s message is simple The future of profit is people s purpose aligned Lead With We not only examines why we must all conduct business differently in order to grow in today s market but provides the how concrete steps any reader wherever they find themselves in the business hierarchy can take toward success

*Beating the Global Odds* Paul A. Laudicina, 2012-09-04 The Answer to Global Overload Contending with the 24 7 news cycle and an endless barrage of choices and information has stymied leadership and decision making strategies among those at the top But we all know this is not a just a problem for the elite The broad based reaction to this chaotic unmanageable assault has been to retrench and to focus on immediate controllable decisions In the process we lose sight of the horizon More dangerous still is the shift we ve seen from value creation to wealth creation where information technology 1 0 has enabled a transaction based society in which the deal is more important than the value it drives or the relationships it is based on On our current path the odds of a better future are slim What we need is a new value proposition Beating the Global Odds is the answer to the dangers of too much of a good thing There s no going back but there is the opportunity to set things right In this book Paul A Laudicina Managing Partner and Chairman of the Board of global consulting firm A T Kearney provides a fast paced and engaging tour of how we got to this point and what we can do about it Drawing on examples from everything from world history and current media to anecdotes from his vast network of CEOs and the world s most innovative thinkers Laudicina helps bring our world of seemingly fuzzy and disconnected pixels into sharp focus The result is a compelling case for change and call to action not only for global leaders but also for everyone who struggles with the question of how we can inspire and seize a better future how we can beat the global odds
