## **Self Representation The Second Attribution Personality Theory Conference Cspp La 1986 Recent Research In Psychology:**

**Self-representation** Seymour L. Zelen, Edward Ellsworth Jones, California School of Professional Psychology (Los Angeles, Calif.), 1986      *Self-Representation* Seymour L. Zelen, 2012-12-06 This volume reports recent results of investigations into the role of attributional processes in self presentation The volume casts a wide net with work of interest to both clinicians and cognitive theorists Self presentation self enhancement defensiveness and self handicapping are all important concepts for clinical treatment as well as for attribution theory The excuses people make for their actions and the morality of blaming and responsibility also fit into this link between attribution and personality This volume addresses such issues with an up to date presentation of current research by the leading investigators of cognitive approaches to the self

*Self-Handicapping* Raymond L. Higgins, C.R. Snyder, Steven Berglas, 2013-11-11 The concept of self handicapping can be legitimately anchored in a variety of intellectual contexts some old and some newer As this volume reminds us Alfred Adler was perhaps the first to articulate the significance of various self defeating claims and gestures for protecting the self concept Thus the apparent paradox of defeat in the interests of protection More recently but still more than 30 years ago Heider's naive psychology added attributional rhetoric to the description of self defeating strategies While predominantly cognitive in its thrust the attributional approach incorporated several motivational influences especially those involving egocentric concerns Heider hardly violated our common sense when he suggested that people are inclined to attribute their performances in a self serving manner the good things I caused the bad things were forced upon me The notion of self handicapping strategies proposed by Berglas and myself a little more than a decade ago capitalized on these homely truths while adding a particular proactive twist We not only make excuses for our blunders we plan our engagements and our situational choices so that self protective excuses are unnecessary In doing so we use our attributional understanding to arrange things so that flawed and failing performances will not be interpreted in ways that threaten our self esteem

*Self-Defeating Behaviors* Rebecca C. Curtis, 2013-11-11 In the desert I saw a creature naked bestial Who squatting upon the ground Held his heart in his hands And ate of it I said Is it good friend It is bitter bitter he answered But I like it Because it is bitter And because it is my heart Stephen Crane The Black Riders and Other Lines It is the function of great art to purge and give meaning to human suffering wrote Bernard Knox 1982 p 149 in his introduction to Oedipus Rex This is done by showing some causal connection between the hero's free will and his suffering by bringing to the fore the interplay of the forces of destiny and human freedom Knox states that Freud was wrong when he suggested that it was the particular nature of the material in Oedipus that makes the play so deeply moving and not the contrast between destiny and human will Knox believes that this play has an overpowering effect upon us not only because we share the tendency of Oedipus to direct our first sexual impulse towards our mother and our first murderous wish against our father as Freud tells us but also because

the theological modification of the legend introduced by Sophocles calls into question the sacred beliefs of our time Knox 1982 pp 133 137

**Self-handicapping** Carla Mazzoleni, Fabienne Lauber Pedroni, 2015-11-17 Le persone vivono senza saperlo o senza ammetterlo nella mente degli altri in quanto anticipano continuamente il loro sguardo vedendosi osservate e viste da punti di vista esterni Gli individui non sono tuttavia semplici passivi osservatori delle reazioni degli altri poiché avvertono che il modo in cui si presentano e le immagini di sé che trasmettono sono in grado di determinare le relazioni sociali e il loro successo Tali processi sono l'oggetto del presente volume nelle forme specifiche assunte dall'Impression Management azioni di promozione difesa ricostruzione della propria immagine sembrano attraversare profondamente le conversazioni quotidiane rappresentando l'obiettivo indiretto e non dichiarato delle esposizioni ed incursioni dei soggetti nelle interazioni Alcune di queste strategie sono spiccatamente autopromozionali altre invece sfruttano un processo paradossale il self handicapping Il volume mira ad insegnare loro come fornire e mantenere un'immagine positiva delle proprie abilità e competenze per trarne grossi vantaggi a livello personale e interpersonale

**Handbook of Social and Clinical Psychology** C. R. Snyder, Donelson R. Forsyth, 1991 **German books in print**, 1988 **Self-representation** Seymour L. Zelen, 1988-01-01 **Subject Guide to Books in Print**, 1997 **Self-Awareness & Causal Attribution** Thomas Shelley Duval, Paul J. Silvia, Neal Lalwani, 2012-12-06 Self awareness the ability to recognize one's existence is one of the most important variables in psychology Without self awareness people would be unable to self reflect recognize differences between the self and others or compare themselves with internalized standards Social clinical and personality psychologists have recognized the significance of self awareness in human functioning and have conducted much research on how it participates in everyday life and in psychological dysfunctions Self Awareness Causal Attribution A Dual Systems Theory presents a new theory of how self awareness affects thought feeling and action Based on experimental social psychological research the authors describe how several interacting cognitive systems determine the links between self awareness and organized activity This theory addresses when people become self focused how people internalize and change personal standards when people approach or avoid troubling situations and the nature of self evaluation Special emphasis is given to causal attribution the process of perceiving causality Self Awareness Causal Attribution will be useful to social clinical and personality psychologists as well as to anyone interested in how the self relates to motivation and emotion
