Cutler,2002 This paper examines why health insurance coverage fell despite the lengthy economic boom of the 1990s I show that insurance coverage declined primarily because fewer workers took up coverage when offered it not because fewer workers were offered insurance or were eligible for it The reduction in

take up is associated with the increase in employee costs for health insurance Estimates suggest that increased costs to employees can explain the entire decline in take up rates in the 1990s      *Angielsko-polska terminologia handlu morskiego*
