*"This Is America"* Katie Rios, 2021-06-10 In *This Is America* Race Gender and Politics in America's Musical Landscape Katie Rios argues that prominent American artists and musicians build encoded gestures of resistance into their works and challenge the status quo These artists offer both an interpretation and a critique of what *This Is America* means Using Childish Gambino's video for *This Is America* as a starting point Rios considers how elements including clothing hairstyles body movements gaze lighting effects distortion and word play symbolize American dissonance From Laurie Anderson's presence in challenging authority and playing with traditional gender roles in her works to the Black female feminism and social activism of Beyoncé Rhiannon Giddens and Janelle Monáe to hip hop as resistance in the age of Trump to sonic and visual variety in the musical *Hamilton* the subjects are as powerful as they are topical Rios explores the ways in which artists relate to and represent underrepresented groups especially groups that are not traditionally perceived as having a majority voice The encoded resistances recur across performances and video recordings so that they begin to become recognizable as repeated acts of resistance directed at injustices based on a number of categories including race gender class religion and politics

[The Storyteller's Dilemma](#) Louis Hernandez Jr, 2017-03-01 Book Human beings are natural storytellers and it's never been easier to access digital technologies that allow anyone anywhere to share their story with the world More stories are being produced and consumed now than at any other time in our species history yet for some reason it's never been more difficult to cut it as a creative Consumers are paying less if anything for all forms of entertainment traditional media companies are tanking and the advertising realm has been turned on its head Although operating budgets have increased in every sector

storytellers are making less than ever before as the lion's share of new revenues cyclically feed mechanisms for distribution and monetization. Our media landscape is in short unsustainable and in the midst of a crisis. What went wrong? How can we fix it? Although he presides over Avid, the leading provider of audio and video technology for creatives and media professionals, Louis Hernandez Jr. isn't your typical multinational CEO. In his two previous books, *Too Small to Fail: How the Financial Industry Crisis Changed the World's Perceptions* and *Saving the American Dream: Main Street's Last Stand*, he chartered his vision of an egalitarian America structured around the communities that compose its very foundation. He brings the same mindset, the same notion of countless small actors with unlimited potential to the tumultuous world of media with his third book, *The Storyteller's Dilemma: Overcoming the Challenges in the Digital Media Age*. In *The Storyteller's Dilemma*, Hernandez puts forth another comprehensive vision for our future that aims to advantage all while disadvantaging none. This book is neither a diatribe against economic elites nor a postmortem analysis of the ills of digital distribution. Instead, it proposes a new approach with the potential to benefit all involved parties, an approach that at once embraces the intensifying power of storytelling and eschews the notion that disruption and instability must greet an industry hand in hand. Rather than favoring any given group over another, Hernandez imagines a streamlined world of shared platforms and common standards that empower storytellers, developers, and deliverers alike. By dispensing of business models that have proved unviable in the digital age, we can turn higher profits while more equitably compensating creatives and creative endeavors. In today's networked world, the economics of storytelling matters to everybody. It's time we all got onboard.
